- Max load: 1,650 lbs.
- Maximum Gross Weight (trailer plus load): 2,890 lbs.

Advisements

Your towing vehicle:

- Must be equipped with a hard top if it is an SUV or Jeep. U-Haul does not allow any type of sport-utility vehicle not equipped with a hard top to tow U-Haul equipment.
- The curb weight of your tow vehicle must exceed the weight of the loaded trailer.
- In order to tow, your vehicle must be equipped with an adequate hitch system and lighting connections. Your hitch system includes the receiver hitch, ball mount and ball. The overall rating is determined [by the lowest rated component of the three. How to determine your hitch system rating.](#)
- Must have 1-7/8" or, 2" hitch ball (2,000 lbs. minimum)
- Must not exceed maximum allowable hitch ball height 25"
- Must have external mirrors on both sides
- Tow vehicle and trailer lighting must be operational at all times, day and night
- The allowed cargo in this trailer will be calculated based on the curb weight of your vehicle and the lowest rated component of your hitch system.
- Maximum recommended speed is 55 MPH
