MASKS: AS SEEN THROUGH FIFTH GRADE EYES

About 60 years ago, I remember learning that most popular newspapers aimed their stories at the intellect of the average 5th grader. This was done to attract the most readers. I'm not quite sure that we have been able to maintain that high standard.

There's been so much confusion about wearing masks. First, we were told we didn't need to wear them, then we were supposed to wear them. I'm still not sure whether they're designed for us not to spread the virus or for us not to come down with it from a maskless person.

I wear my mask whenever I'm around non-family members. It covers many of my wrinkles and supports drooping skin. If John Wayne were still around, he'd have worn his mask to protect the Pilgrims. John, I wear mine not because of medical advice; I wear it because that's what you would have done.

Wearing a mask may assist in not contracting Covid-19, but chances are, it will protect someone close to you! If you choose to go without a mask, try to pick out people that you won't mind possibly giving Covid to, then imagine they pass it on to their mother and she dies.

And don't come to the Hardware without your mask!

A TIP FOR OTHER ANCIENT ISLANDERS

Don't climb your tall ladders to take care of a household chore. This may result in a fall possibly effecting the rest of your life! Why not give a kid a chance? Teach him or her how to do the job from the ground, then use this brilliant idea: **give the kid the ladder!**

ISLANDERS?**
