

**PLEASE READ ALL INSTRUCTIONS AND WATCH INSTRUCTIONAL VIDEO(S) ON WEBSITE
WWW.RAZORRENEW.COM BEFORE USING!**

Thank you for purchasing Razor Renew! These are the instructions for using all three versions of Razor Renew: Short, Long, Traditional.

IMPORTANT INFORMATION ABOUT USING RAZOR RENEW:

Always hang your Razor Renew.

Make sure your razor renew is hanging from a secure base that will not give or move in any direction.

If you use the velcro provided to hang Razor Renew make sure the velcro is securely fastened. After you attach the Velcro tug firmly on the Velcro to make sure it will not come apart and will hold Razor Renew firmly in place to the secure base.

Always hold razor renew by the handle to avoid being cut by the blades of your cutting instrument.

Always push your cutting instrument up or down Razor Renew in the opposite direction that you shave/cut. Don't shave your Razor Renew.

Make sure your Razor Renew and your cutting instrument are clean and dry. Moisturizing strips on razor blade must be completely dry before using on Razor Renew! A wet moisturizing strip will ruin Razor Renew!

At the end of your shave, gently tap the razor blade head on its side against the bottom of the sink, under hot water, or under hot running water – this will clean out the debris from under and between each blade. Lastly, lightly tap the razor blade(s) against a towel several times, and then store it in a dry area.

Always use the suede leather side first - this side sharpens and hones the metal of the blade(s). Pushing the razor blade up and down the suede side of Razor Renew more than instructed will dull your razor blade.

Always use the smooth leather side second – this side evens out the blade edges all the way across smoothing out the burrs and the scratches. The instructions give the minimum amount of times to push the razor blade up and down smooth side of Razor Renew - you can do more if you want.

Do not use paste or dust on Razor Renew. After applying any of these compounds Razor Renew will not be able to sharpen/hone and smooth your razor blades – your razor will get very dull.

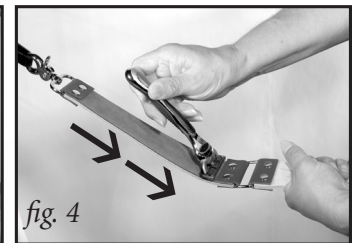

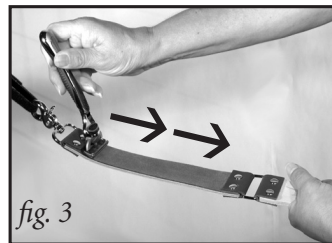

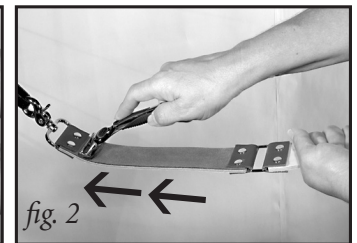

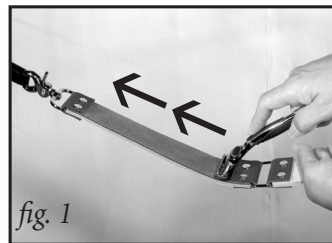

Razor Renew is intended for use by persons who are 10+ years of age! Persons between the ages of 10 – 18 must have adult supervision and/or adult guidance before using Razor Renew!

Razor Renew makes a great gift for just about everyone!

INSTRUCTIONS FOR SHARPENING AND SMOOTHING RAZOR BLADES

Recommended Use: Use Razor Renew before each shave - from the first shave to the last. This will ensure you get the most life out of your razor blade - you will be smoothing out all the burrs and scratches on the blades before they make your shave uncomfortable.

1. Place your razor blade at the **BOTTOM** of the body – **always start on the suede side.** (fig. 1)
2. **Apply firm pressure and push** the razor blade **UP** the body of Razor Renew - 2 times for the Long version, 4 times for the short version, 1 time for the traditional version. (fig. 1 & 2)
3. Place the razor blade at the **TOP** of the body. (fig. 3)
4. **Apply firm pressure and push** the razor **DOWN** the body of Razor Renew - 2 times for the Long version, 4 times for the short version, 1 time for the traditional version. (fig. 3 & 4)
5. **Turn your Razor Renew to the smooth side.** Go 4 times up, and 4 times down the body of Razor Renew for the long version, 8 times up and 8 times down for the short version and 3 times up and 3 times down for the traditional version following steps 1 – 4.

RECOMMENDED CLEANING & CARE: Wipe Razor Renew with a dry 100% cotton cloth on both sides once a month or as needed.

DO NOT use solvents, compounds, paste or soaps on Razor Renew.

ITEMS INCLUDE: 1 Razor Renew, 1 Piece of Velcro.

(Knife and Scissor Instructions on Back)

KNIVES/SCISSORS – FOR BEST RESULTS

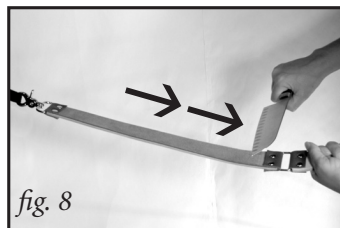

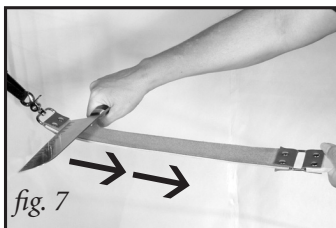

Always touch up you knife/scissors with Razor Renew before each use – this will optimize the length of time you maintain a smooth & sharp blade(s).

Razor Renew is used to maintain the sharpness and smoothness of a sharp knife/scissors.

Never use a dull knife/scissors on Razor Renew. A dull knife/scissors needs to be sharpened on a stone/steel or grinder before being used with Razor Renew.

INSTRUCTIONS FOR SHARPENING AND SMOOTHING YOUR KNIFE

1. The cutting surface of the knife should be resting on the leather at 15 – 25 degree angle and perpendicular to the body with every stroke – **always start on the suede side.** (fig. 5 & 6)
2. **Apply firm pressure**, simultaneously push and draw the knife **UP and ACROSS** Razor Renew slowly from the knife base to tip **4 times.** (fig. 5 & 6)
 - With the shorter version of Razor Renew push and draw the knife UP and ACROSS 8 times.
3. Apply firm pressure, simultaneously push and draw the knife **DOWN and ACROSS** Razor Renew slowly from knife base to tip **4 times.** (fig. 7 & 8)
 - With the shorter version of Razor Renew push and draw the knife UP and ACROSS 8 times.
4. **Turn your Razor Renew to the Smooth Leather side,** going **8 times UP and ACROSS** and **8 times DOWN and ACROSS** the body of Razor Renew following steps 1 – 3.
 - With the shorter version of Razor Renew push and draw the knife UP and ACROSS 16 times following steps 1 -3.

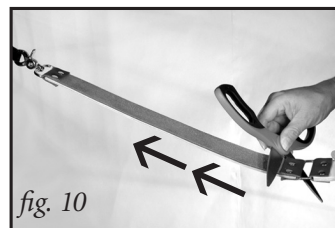

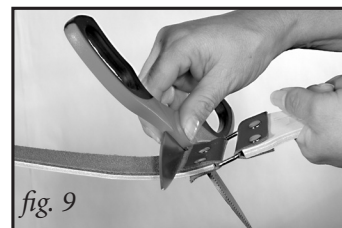

INSTRUCTIONS FOR SHARPENING AND SMOOTHING YOUR SCISSORS

1. Press the beveled edge of the scissor blade against the leather – follow the same angle as the bevel on the scissor blade. (fig. 9)
2. **Apply firm pressure**, simultaneously push and draw the scissor blade base to tip **4 times.** (fig. 10 & 11)

With the shorter version of Razor Renew push and draw the scissor blade UP and ACROSS the body slowly from left to right **8 times.**
3. Switch to the other scissor blade and repeat steps 1 – 2.
4. **Turn you Razor Renew to the Smooth Leather side,** going **8 times UP and ACROSS** the body of Razor Renew following steps 1 – 3.

With the shorter version of Razor Renew push and draw the scissor blade UP and ACROSS the body slowly from left to right **16 times** following steps 1 – 3.
