

Aloha Jane,

thank you for your input earlier today at the committee meeting; it is important for us to move forward collectively. The HFD would like to deliver a training session to provide AOAO management a better understanding of the Life Safety Evaluation Guidelines. Please forward any of your contacts in other management companies who would be interested in attending. The proposed site is here at HFD Headquarters; date and time TBA (ideally within a few weeks.)

Kind regards,

Wayne Masuda
