

# 2026 HYDRO RECORD BOOK AND STATISTICS

PUBLISHED BY THE  
UNLIMITED NEWSJOURNAL

# WHAT'S ON THE COVER?

**(1)** Owned and driven by Jonathan Wainwright, *Chip II* won the Gold Cup races in 1906 and 1907. Both contests were held at Chippewa Bay, New York. ... **(2)** Alfred Harmsworth was a London newspaper publisher who organized a boat race that would involve the fastest boats from two countries. The winner would receive an impressive award called the British International Trophy. The event, which was first held in 1903 at Queenstown Harbor, Ireland, would become more commonly known as the Harmsworth Race. ...

**(3)** Dave Villwock holds just about every record that exists for hydroplane drivers, including most race victories (68), most national titles (10), most Gold Cup victories (tied with Chip Hanauer with 11), most perfect weekends (28), and most heat victories (350). He was also the oldest driver to enter an Unlimited hydroplane race. ...

**(4)** The second hydro to carry the name *Miss Bardahl*, this boat won the 1958 national championship and the 1961 World Championship race. ... **(5)** Mark Tate drove *Smokin' Joe's* to a driver's national titles in 1994 and 1995. ... **(6)** Count Theo Rossi of Italy came from a family that had earned a fortune making vermouth. In 1938, he shipped his bright red boat named *Alagi* to Detroit and won that year's Gold Cup. ... **(7)** One of the first three-point hydroplanes from Ventnor Boat Works was *My Sin*, which Zalmon Simmons drove to Gold Cup victories in 1939 and 1941. The boat was later purchased by bandleader Guy Lombardo, renamed *Tempo VI*, and won the 1946 Gold Cup. ... **(8)** George Townsend owned and drove *Greenwich Folly* to Gold Cup victories in 1926 and 1927. ... **(9)** Caleb Bragg won three Gold Cups in a row beginning with a 1923 victory while driving Col. Jesse Vincent's *Packard ChrisCraft*. He then he drove his own boat *Baby Bootlegger* to victories in 1924 and 1925. That boat was known as one of the most beautiful of its era. ... **(10)** From the right, Joe Taggart, Lou Fageol, and team owner Stan Sayres celebrate their victory in Seattle's 1953 Gold Cup with *Slo-mo-shun IV*. ... **(11)** Among the most successful drivers in history, Dean Chenoweth won 25 races and four national championships. The vast majority of his race wins came in the cockpit of boats named *Miss Budweiser* from 1970 until his death while driving the Griffon-powered *Budweiser* in 1982. ... **(12)** *Such Crust* was the winner of the 1948 President's Cup with Dan Arena driving and the 1950 Silver Cup with Bill Cantrell at the wheel. ... **(13)** Built in 1968 by Ed Karelsen, this *Miss Budweiser* would win 11 races during its career, including the 1969 and '70 Gold Cups. It also won the national championships in 1969 and 1970. ... **(14)** The winner of the 1916 Gold Cup, the first to be held in Detroit, was *Miss Minneapolis*. Driving the craft was Bernard Smith, the son of the boat's builder, Chris Smith. ... **(15)** With Jimmy Shane driving, *Miss HomeStreet* won the national championship in 2016 and 2017, as well as the 2017 Gold Cup. ... **(16)** Dave Heerensperger won a total of 25 races and three national championships as an owner. His first victories came as the owner of *Miss Eagle Electric* in 1968, then continued with boats such as *Pride of Pay 'n Pak* and *Pay 'n Pak* during the 1970s. Always an innovator, his "Winged Wonder" *Pay 'n Pak* of 1973 was the first to utilize a horizontal stabilizer and his 1980 version of *Pay 'n Pak* became the first turbine-powered Unlimited the first to win a race.

**Who created this publication?** The records and statistics in this publication were collected by Andy Muntz, editor of the *Unlimited NewsJournal*, from official sources. The achievement records were compiled from the results of Gold Cup races as well as all official (see note below) regular-season events held since 1922, when the Gold Cup class was created. Comments can be directed to Muntz at [ajmuntz@icloud.com](mailto:ajmuntz@icloud.com).

**Records vs. Statistics:** A **record** is an achievement that is documented by official APBA scorers. Examples include heat and race starts and victories. A **statistic** is an unofficial achievement that is derived from those records, such as a winning percentage. The statistical rankings included in this publication were developed through the analysis of heat results and other statistical data.

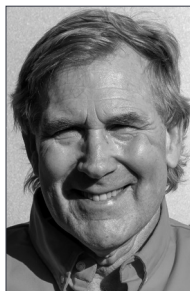

**What is an official race?** The information in this Record Book includes the results of all "official races" that took place since 1922, which is when the Gold Cup class was established. It also includes Gold Cup races and some Harmsworth races that were held previous to 1922. To be counted among the 731 official races listed here, an event must meet two conditions: 1) At least three starters of the Unlimited-class, Gold Cup-class, or the equivalent; and 2) At least two heats of racing. The results of free-for-all events, for example, which were just one heat and were common during the years before World War II, are not counted in these records as an official race. Many exhibition races involving just one or two Unlimited-class entrants also wouldn't be counted in these records.

**Who's the winning driver?** In the case where more than one person handled the steering wheel during an event, the person who drove the boat in the final heat is given credit for the victory.

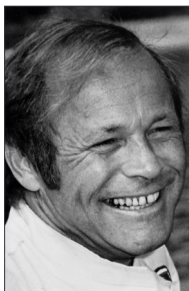

**What is a race team?** An individual boat earns a different set of performance statistics for each of its owners. For example, if a boat is owned by three different people during its career, it would have been part of three different race teams and would accumulate three separate sets of performance results.
