# WOOD BLINDS

## WHY OUR WOOD BLINDS?

- 1 3/8", 2" and 2 3/8" slat sizes accommodate any window size
- Choice of 50 natural stains and neutral solids; most styles crafted from durable basswood
- Decorative styles include Enhanced Grain, a tone-on-tone wood grain and Coastal, a wire-brushed texture with a stylish, weathered appearance
- A full range of control options, including cordless Lift & Lock™, cordless lift and RemoteTilt motorization
- Woven tapes in rich solids and elegant patterns allow for the perfect persona at the window

- Heavy-duty slim-design headrail and crash-proof cordlock provide smooth, easy operation
- Innovative, magnetic valance attachment system is secure, easy to install, and conveniently adjustable
- Valance returns are glued and finished by hand for a perfected look and time-saving installation
- Limited Lifetime Warranty ensures customer satisfaction

FEATURES	BENEFITS
<b>SLAT SIZES</b>	
1 3/8", 2", 2 3/8"	Selections for virtually any size window; from the smaller 1 3/8" to the larger scale 2 3/8" that offers optimal view-through and a more dramatic look.
<b>SLAT STYLES</b>	
Smooth Finish	Choice of natural stains and neutral solids, including gray- and taupe-based tones.
Enhanced Grain	Refined grain styles with a rich tone-on-tone appearance. (2" only)
Coastal	Beautiful abachi wood features a wire-brushed texture with a stylish, weathered appearance. (2" only)
<b>VALANCE PROGRAM</b>	
Valance Styles	Four style choices and two decorative options, Keystone and tape valance, complement any decor, from traditional to sleek and contemporary to a bolder, larger profile.
<b>A</b> Glued Returns	Returns are glued and finished by hand for a perfected look and time-saving installation.
<b>A</b> Magnetic Valance Clips	Innovative, proprietary magnetic clips make installation quick, easy and secure while also allowing for custom height and projection adjustments. Installers love them!
<b>CONTROL OPTIONS</b>	
Standard Tilt/Lift Cords	Superior tilting mechanism is designed for smooth, long-lasting operation. Blinds tilt open or closed by pulling on the cord tilt. Lift cord features break-away stop ball for added safety.
Wand Tilt	Adjusts the blinds open or closed with a simple twist. (1 3/8" and 2" slats only)
<b>A</b> Cordless Lift & Lock 	Press a button on the aluminum bottomrail to lift and lower the blind; release the button to lock blind into place. No lift cords enhance child safety.
Cordless Lift 	Lifts and lowers shades with a light push or pull on the bottomrail. Eliminates lift cords making them safer in homes with children. (2" slats only)
RemoteTilt	Battery-powered multi-channel radio frequency (RF) system tilts blinds open and closed with the touch of a button. The RF remote control operates the blinds at great distance and the multi-channel version allows for independent blind operation. Combine with wall switches or timer for total convenience.
<b>DESIGN OPTIONS</b>	
Solid/Decorative Tapes	Over 30 selections to accentuate the blinds; decorative tapes are woven, not printed.
LightsOut Routeless	Slats have no route holes, which means reduced incoming light, increased privacy and better aesthetics.
Rounded Corners	No-charge option that softens the blind's edges.
2- or 3-on-1 Headrail	Two or three blinds may be combined on one long headrail for flexible light control and beautiful unity.
<b>HARDWARE AND INSTALLATION</b>	
Low Profile Headrail	Strong enough to cover large windows, yet slim enough to reduce stack and allow more view.
<b>A</b> Metal Components	Cordlock, tilter and barrels inside the headrail are metal, not plastic, for better performance and longer life.
Ladders	Four strand ladders won't stretch, ensuring uniform slat alignment.
Tilter System	Wheeled cord tilter and hexagonal tilt rod enable smooth operation and tight slat closure.
Trapezoid Bottomrail	Provides contoured, modern look, improved slat tilting/rotation, and better closure.

**A** The Alta Advantage

**LIMITED LIFETIME WARRANTY** on all Wood Blinds by Alta ensures customer satisfaction.

 Certified Best for Kids when used with wand tilt
