D-CO DESIGNATED MARKSMAN COURSE

(SNIPER 101)

3-7 June 2019

Over the last two years, D-CO has been running Designated Marksman courses for various units and teams. Requests have been made to run a course for individuals who are new to their units or moved into a position that will be utilizing a 7.62 weapon system. For Law Enforcement, this course would build a solid foundation in engaging targets at greater distances than normally taught in LE schooling.

All training is conducted with organizational weapons and equipment. This allows for individuals to build confidence in the weapon system they will be operating with and to vet their current systems.

The training will cover the following:

- Ballistics
- Range Estimation
- Wind Calling
- Target Engagement to 1000m
- Moving Targets (Range Dependent)
- High Angle (Range Dependent)

Cost per student is \$3160.00 per shooter.
(8 slots currently available)

This does not include transportation, lodging, equipment, or food. This will be incurred by the individual. Training location in Montana has lodging and food at the location.

Training dates are as follow: 3-7 June 2019

Packing List, Ammunition Requirement, and Schedule will be given to participants.

\$1000 non-refundable down payment is required to reserve your position. We accept GPC. We must have 8 shooters to conduct the event. If D-CO cancels the class due to lack of participation, a full refund will be made.

Contact us at info@d-co.us to sign up and reserve your course position.

Know your enemy and know yourself, and you need not fear the results of a hundred battles. Sun Tzu 500 B.C.
