

CAI Long Island Chapter Meeting

with an educational presentation on

Fire Safety

Property loss can be a traumatic time for community association stakeholders: Boards, owners, tenants, and property managers. Our presentation will cover risk management approaches and issues surrounding the Board's responsibilities with regard to ensuring community-wide fire safety. What are some of the fundamental steps your association can take to make sure fire readiness is a top concern? There are questions that every Board should have answers to and we will cover important action steps to take both before and after a property loss such as: Do you have a written action plan? Do you have the proper contractors standing by ready to assist in an emergency? We'll tell you when to file an insurance claim, the documents needed, and ways to help move your claim through the process.

We'll share our experiences with you and provide some tips should any serious fire threats arise.

Our **educational presentation** will be conducted with the participation of our professional business partners:

Mario Gatt – Briscoe Protective Systems

Nick Mandelos – MAXONS Restorations, Inc.

with a Guest Speaker from the Suffolk County Fire Marshal's Office and moderated by Suzanne Borelli from Belfor Restoration.

Thursday, May 16th, 2019
