## Why NMHTS should be your first choice

Northern Michigan Health Training School is committed to excellence and has a proven history of above-average success rates for students taking the State of Michigan Certification Exam.

We utilize only highly experienced, well-trained nurses who have successfully completed the instructor certification course through the State of Michigan. Our program format has been approved by and is monitored through the State of Michigan Department of Health and Human Services.

Students are taught in a classroom setting where they receive a vast amount of information and classroom practice before engaging in hands-on experience in a clinical setting. Each student is respected and treated as an important individual. Certification test preparation as well as job placement assistance is provided during and after program completion.

## What is a CNA?

CNA stands for Certified Nursing Assistant, also known as a Certified Nurse Aide. CNAs are in high demand and work in a wide variety of settings, including nursing facilities, hospitals, clinics and private homes. It takes genuine compassion and caring for a person to become a Certified Nurse Aide.

## CNA Program Description

The Certified Nursing Assistant program includes education on theory, laboratory, and on-site clinical instruction.

Qualified staff will teach skills on body systems, disease, and treatment for patients and their plans regarding care. Students will learn medical terms and how to observe and act upon individual resident needs.

Upon successful completion of this course, the graduate Certified Nursing Assistant will be eligible to take the State of Michigan CNA certification written and skill exam. NMHTS will help every step of the way.

## What does your class cost and what does that consist of?

Classes are traditionally offered Monday through Friday over three weeks, but flexible night and/or weekend instruction can be arranged. Contact NMHTS for pricing and scheduling, pricing begins at \$875; includes required textbook, use of supplies, classroom teaching, lab and clinical experience. Class with CPR Basic Life Support for the HealthCare Provider is available for \$925.

Other classes offered include First Aid and Heartsaver AED for Adult, Child and Infant as well as skills sessions.

## Can I get any financial help to pay for this class?

In an effort to provide trained staff to nursing homes, the State of Michigan has funds available to CNA graduates after program completion. We can discuss this in-depth with you.

Low payment plans are available. Everyone has unique financial needs. Please contact us about creative ways to make your dream of education and career placement a reality.
