Thanks for the info Rhonda, Sheila and I are pretty flexible so let us know what date and time the EPA sets for a tour and we'll do our best to attend!

Subject: RE: Meeting @ Waterford Farm

Todd,

Since we have begun our planting season and the first of May is upon us, I thought I would drop you an e-mail to see if you have been able to set a date to visit our Waterford farm. I know you indicated in your last voice mail to me that you were intending to make it up here around the first of May. Since I have not yet heard from you regarding a date, I am becoming a bit nervous due to our planting season already being underway. I would appreciate hearing from you ASAP so that we may set a meeting date and resolve any outstanding issues.

Thanks,
Bob Brace
