GREAT NEWS for people with speech disabilities!

ITAC has expanded their **FREE** equipment to include:

Apple iPad with Communication/Augmentative and Alternative Communication Apps*

PLEASE NOTE that certification of a speech disability from an SLP is required to qualify for this equipment

The Apple iPad, combined with Augmentative and Alternative Communication (AAC) apps, is an extremely effective tool for helping individuals with speech disabilities communicate.

ITAC is a not for profit serving Illinois residents with Hearing or Speech Loss, on behalf of all telephone companies in Illinois, for over 30 years. ITAC is funded by a small surcharge on every telephone line in Illinois. That charge is currently two cents per month per line. There are no age or income restrictions. All ITAC equipment is **FREE**.

ITAC has a range of other equipment available, from TTYs to captioned phones, to cell phone amplifiers for people with Hearing Loss.

Visit our website, www.itactty.org to find out more about us or download an application.

Or, call us at 1.800.841.6167. We would be most happy to talk to you!
