# WOODWIND LAKES APPROVED PAINT COLOR CHART FOR EXTERIOR PAINTS

---

This table has been prepared to assist homeowners in selecting paint colors that are already pre-approved as acceptable according to the Deed Restrictions. The paint colors are numbered according to Sherwin Williams. That is not to say that only the SW brand will do. Any brand will do as long as the selected color closely matches a SW paint number. Paint colors must be submitted via application (available on the Woodwind Lakes web site) to our management company who forwards it to the Architectural Controls Committee for final approval.

Colors not on this list are not pre-approved but may be acceptable if submitted for approval by the ACC and deemed compatible with the neighborhood aesthetic.

*NOTE: These color samples are approximations only. For a more exact match, visit the Sherwin Williams store for sample swatches. Lowes also carries Sherwin Williams paint.*

---

# SOME DEFINITIONS

---

## SIDING

Siding is typically made from horizontal boards, either wood, manufactured wood or Hardie® Plank. In Sections 1, 2 and 3 many one-story homes only have a minimal amount of siding; two-story homes often have a mixture of brick and siding. In Section 4 most homes have only Hardie® Plank siding.

## TRIM

Trim generally refers to the material around windows, doors, columns, soffits, eaves and gutters. *NOTE: garage doors must be painted to match the siding.*

## ACCENT

Usually refers to such things as doors and shutters.

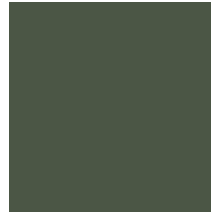

**NOTE: In no case will painting brick be allowed.**
