Date: 08 April 2013

3.11 (b)(2)

CLEANING, SANITIZATION, HOUSEKEEPING, AND PEST CONTROL.

(3.11)(b) Sanitization of primary enclosures and food and water receptacles. (2) Used primary enclosures and food and water receptacles for dogs and cats must be sanitized at least once every 2 weeks using one of the methods prescribed in paragraph (b)(3) of this section, and more often if necessary to prevent an accumulation of dirt, debris, food waste, excreta, and other disease hazards.

Throughout the facility, the housing units and other surfaces have an accumulation of grime, dirt and other debris that has turned a dark, brownish color. An accumulation of grime and other debris can lead to odors, pest infestation and may lead to spreading of diseases. All build up must be cleaned and sanitized at least once every 2 weeks or more often to eliminate any build up at all times. Affects 90 animals. Correct by 4/22/13.

Exit interview conducted with licensee.
