Kansas City, Missouri December 3, 2024

Violet Wisdom

Expert researcher Violet Wisdom explains in detail the methods used by professional researchers to determine when a home was built, who the property owners were, and what the history may have been, using multiple avenues that are readily available to the public but that are relatively unknown.

Margie Kay

Professional investigator Margie Kay describes what the different types of entities are, why they may be haunting a particular place or person, and how to stop the haunting by yourself or with the help of a professional investigator.

Rarely do people have no choice but to move, but that is a drastic measure that might be avoided.

This is a unique book - one that has never been addressed by other researchers or authors. The book is available at Amazon.com.

The authors are available for radio and podcast interviews.
