

DESCRIPTION

DUSTAWAY is recommended for use wherever dust transmission must be controlled.

DUSTAWAY keeps equipment, machinery, shelves and stock dust free and unsoiled. It reduces equipment and machinery damage and deterioration.

DUSTAWAY controls dust chemically by trapping, holding and neutralizing the electrostatic charge, inhibiting dust movement on interiors of construction sites. Effective on concrete dust, drywall dust, and all other types of dust. Surfaces should be treated only once every 7 to 10 days. The residual capillary action traps and holds the dust between treatments.

ADVANTAGES

- Controls Dust Chemically
- Promotes Healthy Environment
- Prevents Splatter
- Reduces Maintenance Costs
- Reduces Damage to Equipment
- Estimated Coverage Rate Per Gallon is 7,000 sf

FOR USE BY

- Building Contractors
- Concrete Finishers
- Terrazzo Contractors
- E.I.F.S. Applicators
- Specialty Contractors
- Clean-up Contractors
- Textile Plants
- Laundries
- Paper Plants
- Masonry Contractors
- Plaster Contractors
