5849 West Flagler Street  
Miami, FL 33144  
USA

Attn: Daniel Crespo

***Congratulations!***

This is to confirm that you are officially a GAF Certified Installer. Becoming a Certified Installer is a special honor. You and your employees should be very proud. My guess is that property owners that choose your organization will realize that they made a great choice.

This is to confirm that Florida Standard Roofing is one of a small number of professional contractors in your metropolitan area that has earned this special factory certified status. I wanted to take a moment to congratulate you on being chosen for such a fine honor. This status is special... less than 6 of each 100 professional roofing contractors in the country meet the professional qualifications and commit to the superior standards required to become certified.

How will your customers benefit? The special GAF Weather Stopper\ System Plus Ltd. Warranty can only be installed by a factory certified organization. This means your customers can receive much greater peace of mind, because these enhanced warranties more than double the coverage of traditional roofing warranties offered by competitors.

Florida Standard Roofing is especially qualified for installing a Weather Stopper\ 3-Part Roof Protection System. By reputation, your company is among the very top for the entire United States in both quantity and quality of these installations.

Please don't hesitate to share this news with your customers and employees and give me a call if you have any questions.

Your Certified Installer status expires on 01/31/2015.

Regards,

A handwritten signature in black ink that reads "Jim Slauson". The signature is written in a cursive, flowing style.
