

Professional Soundproof and Moisture Barrier

Perfect for House floors, SoundGuard Silver does an excellent job reducing impact sounds as footsteps. You'll notice the difference when walking your floors since it acts as a surface cushion to minimize the traffic bounce. Plus it protects your floors from humidity and moisture underneath them, just as the SoundGuard.

Moisture Barrier

The unique composition and construction of SoundGuard Silver provides it with **Moisture Barrier** qualities, not found in other underlayments.

Sound Reducing

Quiet your steps with SoundGuard Silver. Rated at **46 in the Impact Insulation Class (IIC)** and **44 in the Sound Transmission Class (STC)**.

Closed-Cell

SoundGuard Silver is engineered thinking about **quality and lifetime**. It features a revolutionary **Closed-Cell Structure** for **maximum durability**.

Surface Cushion

You'll notice the difference as you walk on your floors. The **multi-layered build** serves as a surface cushion to **minimize the traffic bounce**.
