### COVER CROPS - <https://www.lacrosseseed.com/product/guardian-fall-rye-cover-crop/>

Guardian Fall Rye cover crop grass seed is an upright, cool season annual grass that germinates in cool conditions. Very few species offer the many benefits that Guardian does while allowing extended planting

flexibility long into the fall. Guardian Fall Rye cover crop grass seed was carefully screened to provide dependable results in cover cropping situations. Excellent germination and early vigor in cooler temperatures,

combined with solid winter-hardiness and quick, spring green-up make Guardian Fall Rye an excellent choice for a low-risk entry into cover cropping.

- Created from strong demand for reliable seed from a trusted, weed-free source
- Screened for purity & cleanliness
- Excellent germination & early vigor (allows for later fall seedings)
- Strong winter hardiness
- More management considerations on pages 7 & 8 of the [Soil First® Management Guide](#)
- > 90% Germ, > 98% Purity
- Best Use: Fall, Winter, & Spring Pasture

Brassica cover crop options are designed and selected to meet the needs of growers and

landowners looking to increase productivity by preserving and bettering their soils. From our

extremely popular Soil First® Select Radish to Rapeseed or Turnip, we have you covered.
