

<h1>Hilutec Rollstock Systems</h1> <p>The package includes:</p>	<h1>Hilutec Machines</h1>	<h1>Competitor</h1>
<ul style="list-style-type: none"> <li>✓ Stainless Steel Frame</li> </ul>	<ul style="list-style-type: none"> <li>❑ Solid stainless steel frames provide great strength and stability</li> </ul>	<ul style="list-style-type: none"> <li>➤ Stainless wrapped aluminium frames are weaker and prone to cracking, which can lead to bacteria build up.</li> </ul>
<ul style="list-style-type: none"> <li>✓ Moveable with pallet jack or fork lift / Easy to locate compact models are fitted with heavy duty swivel casters with brake</li> </ul>	<ul style="list-style-type: none"> <li>❑ The strength of the compact - FP – frames allow them to be easily moved with pallet jacks or fork lifts</li> </ul>	<ul style="list-style-type: none"> <li>➤ Weaker materials and design requires additional support, making them cumbersome and time consuming to move</li> </ul>
<ul style="list-style-type: none"> <li>✓ Easy to remove panels for cleaning and maintenance</li> </ul>	<ul style="list-style-type: none"> <li>❑ Innovative hygienic designs that help safety and streamline product changeovers</li> </ul>	<ul style="list-style-type: none"> <li>➤ Large heavy panels that are cumbersome to access and handle</li> </ul>
<ul style="list-style-type: none"> <li>✓ Hygienic designed slotted film rollers that drain in any position</li> </ul>	<ul style="list-style-type: none"> <li>❑ Hygienic designs that help safety and streamline product changeovers</li> </ul>	<ul style="list-style-type: none"> <li>➤ Less hygienic designs with harder to clean rollers and parts</li> </ul>
<ul style="list-style-type: none"> <li>✓ Top of the range labelling and printing systems</li> <li>✓ Inline Cross Web and film Labellers or offline top and bottom labellers</li> </ul>	<ul style="list-style-type: none"> <li>❑ High performance labelling and printing systems, quick set-up modules, control panel integration, easy to install and maintain</li> </ul>	<ul style="list-style-type: none"> <li>➤ Not available standard on all models</li> </ul>
<ul style="list-style-type: none"> <li>✓ Integrated remote maintenance feature via Ethernet interface</li> <li>✓ Remote production assistance</li> <li>✓ Asset protection service</li> </ul>	<ul style="list-style-type: none"> <li>❑ The – FP – Models come standard with internet Ethernet interface to facilitate machine monitoring and low cost maintenance</li> </ul>	<ul style="list-style-type: none"> <li>➤ Not available standard on all models</li> </ul>
<ul style="list-style-type: none"> <li>✓ Integrated combination check weigher and metal detector systems</li> </ul>	<ul style="list-style-type: none"> <li>❑ Hygienic designs, top of the range machines and fully wash down systems</li> </ul>	<ul style="list-style-type: none"> <li>➤ Not available standard on all models</li> </ul>
<ul style="list-style-type: none"> <li>✓ Local manufacturing facility for additional sealing &amp; forming tools (Australia)</li> </ul>	<ul style="list-style-type: none"> <li>❑ No long waiting time of tooling</li> <li>❑ Local design and cost effective CNC production</li> </ul>	<ul style="list-style-type: none"> <li>➤ Long delivery time</li> <li>➤ Price increase for import of toolings</li> </ul>
<ul style="list-style-type: none"> <li>✓ Modular design</li> </ul>	<ul style="list-style-type: none"> <li>❑ The – FP – models are designed to grow with your business and is highly customizable</li> </ul>	<ul style="list-style-type: none"> <li>➤ Less modular designs and older technologies limit flexibility</li> </ul>
