

Ice...of America, LLC

'Redefining Cool'

Ice...of America was founded in 2010 to promote the art of Ice Carving in cities and towns throughout this great nation. They are a group of world class ice artists that take ice carving to an astronomical level. These artists are nationally and internationally recognized and have years of experience in organizing all sizes of ice sculpting events. No matter if you need a few hours event, or an entire four day weekend festival they can incorporate everything to make your experience a most memorable one. These guys want to entertain and bring their amazing talents to the masses! They awe everyone with spectacular ice sculptures, and fast paced interactive shows that will leave everyone wanting more. Since these sculptors have all come through the culinary industry, they are extremely well versed in providing that 'unique' customer experience! Their goal at every event is that everyone goes away saying one word...**"wow!"**
