We used Big D this past Saturday for our daughters wedding and they were great! We initially contacted them in September and they quickly provided a very reasonable estimate. My daughter and I went to their Addison location and Cassie helped us pick out tablecloths and chairs. The delivery guys arrived at our home on time and were professional and quickly set up all of our items. The set up was beautiful, I had no idea my backyard could look that great. Today the delivery guys came and picked everything up. I would definitely use them again, it was an easy process.

We've used Big D Party Rentals three times now and my wife and I are always impressed with the quality of their items you get for the price. We have picked the items up twice from their warehouse and they load the tables and chairs into our SUV and unload when we bring them back. The delivery service was great to have when we had a event at our home, they did a full set up in the backyard and brought in all the dishes and wine glasses into the kitchen. They dropped off all the items on Friday for our Saturday party and came back on Monday which gave us time to set up. Everyone is very friendly and the delivery guys made sure we were happy with the set up before they left.
