Previous minutes of the meeting held on 10th February 2017 were accurate

Item	Discussion	Action
Matter arising from minutes	<p>APLS – still not recognised for educational standard for paediatric nurses in trauma. Discussion re; peer review and the implications for MTC, TU.</p> <p>LL still needs to chase the start date for the APLS for the changes</p>	<p>LL to e-mail RC</p> <p>LL</p>

<p>Ward Competencies</p>	<p>This are nearly completed - discussion that there is only a need for one level, and no indication as yet for level 2 competencies.</p> <p>Discussion that these competencies would be applicable for all ward paediatric nurses working with paediatric trauma. However, the group recognise that the paediatric trauma is rare and that nurses may not have much contact during their working day. Therefore, the nurses can pick which of the competencies was suitable for them as individuals</p> <p>QI needs to be developed –discussed draft statement</p> <p>“A minimum of one registered paediatric nurse on each shift that has completed the relevant competencies to their own ward environment. 24hour 7 day per week. “</p>	<p>LL to draft introduction for comments</p> <p>LL to draft QI for comments</p>
<p>Educational Standard for ward competencies</p>	<p>Group discussed that there is no known educational standard for paediatric ward trauma nurses. APLS not suitable for ward nurses as concentrate on initial resuscitation.</p> <p>Could standardise the education by developing an e-learning package. However, this would need to be hosted by either university or other institution. This would have cost implication</p> <p>Need to discover what is already available across the country</p> <p>Discussion re: mapping the ward competencies across to what is already available</p> <p>Discussion re: development of e-learning package. This could be supported by sponsorship by company.</p> <p>Trauma network - in house training</p>	<p>ALL – need to find information regarding local course available</p>

	<p>Child safeguarding: Level 3 Trust Safeguarding & knowledge local safeguarding policy, or evidence of accredited e-learning package</p> <p>Bereavement – local child bereavement</p> <p>Head Injuries - NICE guidelines</p> <p>Paediatric Pain – local policy & local education - have tabs to redirect to other resources</p>	
<p>E-learning</p>	<p>Discussion re: the potential development of an e-learning package for ward base nurses. The structure for each section would be:</p> <p>Anatomy</p> <p>Mechanism of injury</p> <p>Treatment and complications</p> <p>Summary and case studies</p> <p>Areas to be develop could include:</p> <ol style="list-style-type: none"> 1.Chest injuries - LL 2. Abdominal injuries – Jane 3. Head injuries - Sarah 4.Orthopaedics - Donna 5.Spinal cord injuries - Donna 8.ENT/Max-Fax - kate 9.Ophthalmology - kate 10. Teenage pregnant trauma patient - charlotte 11.Burns - Sarah 12. Assessment <p>Approached RCN re: possibility of hosting this e-learning package, attach CPD points, hours for revalidation, plus possible certificate.</p>	

	Approach local universities to see if they would host either e-learning package or WBA. What cost would this be.	
Critical care competencies	<p>Reviewed the ones developed - seem to focus on head injuries and there is a need for other traumatic injuries to be explored</p> <p>PICS meeting 12th May - to discuss the trauma competencies, should feedback to this group.</p> <p>Await the outcome of the PICs meeting and ask for feedback</p>	AL, HB, KH
AOB	<p>11th December 2017 - Pan London Trauma Nursing conference LL will send out when call for paediatric papers</p> <p>Publicity - e-mail paediatric nurse re: this group</p> <p>E-mail Mike Wafer – Vice0 Chair CMTC 5+11 group, to publicise the group.</p> <p>Website : discussion re: NMTNG and its content , please can individual look at the</p> <p>www.nmtng.co.uk</p>	DB
	<p>Next meetings -</p> <p>8th September 2017</p> <p>1st December 2017</p> <p>All at present scheduled for Birmingham and to commence at 10am.</p>
