The recessed Regular Meeting of August 8, 2016 was called to order at 7:07 pm, by Chairman Barker.

Trustee Carter moved to adjourn the Regular Meeting of August 8, 2016, seconded by Trustee McClure. All yeas. Motion carried.

The Public Hearing of August 22, 2016 was called to order at 7:08 pm.

Present: Trustees Carter, McClure, Sulzberger and Thompson, Chairman Barker, Chief Coonce, Fire Chief Stewart, Assistant Fire Chief Miles and Village Clerk Chapman.

Trustee Sulzberger began discussions by inquiring if the Village could increase the tax rate. Chairman Barker affirmed that it would require a vote of the people. The Village is required to file form to Clay County each month to account for new construction costs.

The aggregate valuations were discussed. It was the consensus of the board to look into the possibility of a slight increase in taxes. Chairman Barker noted that the Board would need to consider the use of additional funds. It was stated that a previous Board of Trustee’s attempted to increase the maximum by a nickel and the efforts were defeated. No increases could be made for 2016 taxes. We would need to be accountable for an increase. It was noted that the Ford Franchise fees were up.

The amount the Village receives from the Ford Plant fluctuate each year. The state, county, and village created a Satellite Enterprise Zone where certain areas would receive a tax abatement for a 10-year period.

Chairman Barker stated previous bond issues have been very beneficial. The Village has always managed to pay the bonds off several years early. Bond issues have been used for new emergency equipment, the construction of the community building, city hall/police station, and the fire station. Trustee Thompson stated a bond issue would be the only realistic way to deal with maintaining our sewers.

The Village pays $58,000.00 annually for residential trash removal. In most cases, residents’ annual taxes cost less than what the Village pays for individual trash removal.

Chairman Barker mentioned as previously noted the Emergency Service Personnel wages are lower than most surrounding communities. Trustee McClure encouraged everyone to look at the tax and Franchise Fees to see what each resident or business personally pays that comes back to the Village. Trash is one small example. She noted her total was less than $100.00 a year. She would like to get an average and the comparison of the cost to run the departments.

Ms. Finley said she had no objection to paying for trash. In addition, it was noted it was better to have it managed by the Village under one centralized company. Pleasant Valley was used as an example as their residents have three different companies which makes it harder to know who is providing the service and what schedule they are on. More wear and tear on the streets with three companies coming in weekly.
Mr. Goeller stated that the sidewalks in the Village are under the Road District and MoDot takes care of 69 Highway. He added that the Road District and the Village have had issues getting along.

The Village has discussed a 5 year/10-year plan on several occasions.

Trustee Thompson moved to adjourn the Public Hearing of August 22, 2016, seconded by Trustee McClure. All yea. Motion Carried. 7:33 pm.
