This document was created using a Contractology template available at http://www.freenetlaw.com.

What is spam?

In the context of electronic messaging, spam refers to unsolicited, bulk or indiscriminate messages, typically sent for a commercial purpose.

Les Gites du Sangliers has a zero-tolerance spam policy.

Automated spam filtering

Les Gites du Sangliers 's messaging systems automatically scan all incoming email [and other] messages, and filter-out messages that appear to be spam.

Problems with spam filtering

No message filtering system is 100% accurate, and from time to time legitimate messages will be filtered-out by Les Gites du Sangliers systems.

If you believe this has happened to a message you have sent, please advise the message recipient by another means.

You can reduce the risk of a message being caught by the spam filters by sending the message in plain text (i.e. no HTML), removing any attachments, and ensuring that your messages are scanned for malware before dispatch.
