THE FINEST MOSAICS

MODERN LIVING

Classic Design with an Edge

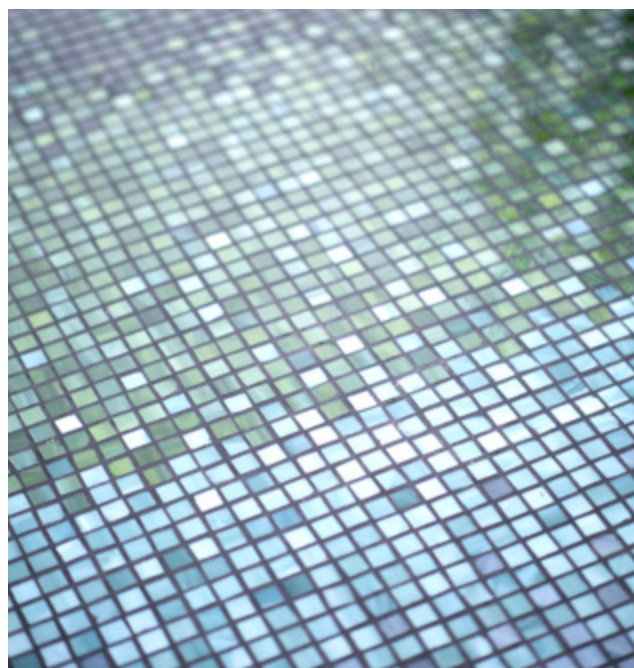

Modern Mosaics.

A twist on a classic artform. Something to satisfy those with a sophisticated eye, craving something unique and special. This collection of accent pieces was created from my desire to combine clean lines and compelling hues with interesting patterns that would all work well together.

Hand-cut stained glass pieces are Smoothcast™ into our proprietary stone blend creating outdoor durability with perfectly smooth tops! Base styles are treated to our multi-step powder coating process that adds beauty and provides lasting protection.

Art harmonizing with function. It's a beautiful thing!

Enjoy. *Neille*
