

AVIATION ALLIANCE, INC.

Consulting Engineers

CAPABILITY STATEMENT

➤ Providing Professional Consultation

Our Power Systems Division Encompasses All Industries

Aviation Alliance, Inc. is a corporation with a reputation for their knowledge of the aviation community, understanding of airport and airspace procedures, methods, thoroughness, and good engineering judgment. The corporation began in 1980 as a construction firm designing and building airport lighting systems and navigational aids. Since early 1990 we have focused on airport consulting services. Our specialty is airports and aviation. We also perform airport planning, civil and electrical design of airfields, navigational aids siting and installation design, and airfield safety and security projects. Aviation Alliance has become highly known for its airfield Lighting, NAVAID design, and consulting capabilities. Our hands-on investigative approach to projects has made us the electrical consultant of choice for many clients.
