

# TIME FOR THE TEMPLE

## GEOGRAPHIC ALIGNMENTS SIGNALING A REBUILDING

This illustration shows that the geometric angle of the rare solar eclipse of March 20, 2015 -on the Equinox is in direct line with the Temple Mount's sacred geometry and ley-lines. Although the eclipse will not be as striking in Jerusalem as seen in Iceland where it will be a total eclipse, nonetheless this study stipulates that this specific eclipse is both mathematically and geographically correlated to the Temple Mount in Jerusalem. The Zenith or the halfway mark of the eclipse is directly in line at a 45° angle to the Dome of the Spirits (Tablets). This Dome of the Tablets, in turn is also in approximate phi ratio to the geographical proportions to the purported site of Mt. Sinai in Arabia and Mt. Ararat in Armenia. The 3 sacred sites all have in common a Covenant with the Creator YHVH. The only Covenant that was conditional was that given to Israel through Moses. The Law demanded perfection and a 'righteousness' that could possibly be attained by 'good works' but did not merit nor could give Eternal Life. The Messiah, Jesus Christ, as the final 'Ark' of Deliverance came to proclaim a Righteousness apart from the Law. Jesus, GOD the SON came to give life, enable a new birth, the regeneration of the Human Spirit and transformation of mind. Many End-Time scholars believe that this specific total solar eclipse at this angle tied to geographic ratios could be an astronomical signal to effect the conditions that will enable the 3rd Temple to be rebuilt. The Equinox Eclipse could be an astronomical time-marker whose cosmic alignment appears to signal the 'time' for rebuilding of the 3rd Temple. It will either come by a political and/or religious decree that will facilitate a possible start to the preparations or consecration needed for the Temple Mount to be sanctified and thus have the start of the rebuilding efforts initiated in some way.

If the phi ratio pattern applied to 'Time' since Noah to the Cross is valid, perhaps the mathematical precise times of Ararat and Sinai can be calculated. A more reliable date such as the Crucifixion in either 32 or 33 AD can be the benchmark. From there the phi ratio can be ascertained to calculate the timing of the giving of the Law at Mt. Sinai to establish the 3rd point that would correlated to the timing of Noah's Ark.

After the Flood, the 3 Sons of Noah's descendants migrated to 3 main destinations after the Tower of Babel event. The 3 prominent races' color came as a result of Earth's latitude.

Heading: ~32°

800 Nautical Miles exactly

Approximates Φ phi ratio of TIME

The time sequence of YHVH's 3 'Arks' appears to be clocked in phi ratio proportions since Noah, but in reverse order of the Feasts of YHVH. Perhaps this order will repeat itself in the End of Days. It could start with the Temple that will be rebuilt, then the Ark of the Covenant perhaps will be secured, then as in the Days of Noah, the Messiah will come the 2nd time to execute a divine judgment. Based on this phi pattern of time, the duration could be the infamous 2520 Jewish day count. The last 42 months will be totally given to the AntiChrist or false Messiah that perhaps will allow for the Temple to be rebuilt and sacrifices to start in the first place.

#### MT. ARARAT

Noach

נֹחַ, נֹחַ

The Ark of Deliverance (Sukkot) GOD THE FATHER

#### THE ASTRONOMICAL TIME - MARKER

The graphic above shows the direct correlation between the Biblical events of the Ark of Noah, the Ark of the Covenant and the Crucifixion of Messiah in approximate phi ratio of time and their corresponding geographic localities. The location of Mt. Sinai is presumed based on several direct eye-witnesses doing research. These 3 'Arks' in recorded history are in reverse order from the 3 major Feasts of the LORD. The Feasts start with Passover, then Pentecost and concludes with Sukkot. Each Ark is associated with a type of vessel or container physically displaying the Mercy of the LORD over judgment as a 'covering'. For the Ark of Noah, it is deduced by the process of elimination and is befitting of the 'booth' made for covering. Each 'Ark' is associated with a physical mountain, Sinai, Moriah and Ararat.

START 09:16 (1)  
ZENITH 09:57  
END 10:38 (4)

TIME: UT

The 3 historical events are marked as a Covenant or 'contract' between YHVH and Humanity promising certain stipulations and benefits; 2 are unconditional. The promise to never destroy the Earth by water was promised and a Rainbow has been the 'sign' of that Promise. Jesus Christ paid for the sin of Humanity on the Cross of Calvary to unconditionally save those that repent and receive Christ as Lord and Savior. The sign is His Resurrection. The sign of for the Law at Sinai is the Ark of the Covenant.

#### READY TO REBUILD

One popular theory about where the 3rd Temple is to be built is in line with the Dome of the Spirits or Tablets. This location would accommodate the Dome of the Rock to be given to the Gentiles. The Dome of the Spirits has been found to have unique mathematical relationships to the Gates of Jerusalem and various landmarks within the limits of the modern city as well. Many speculate that once the decree is given to rebuild the Temple, perhaps the very Ark of the Covenant Moses built will resurface. This most prominent ancient religious relic of the Jewish nation might well be placed on the very spot of the Dome of the Tablets.
