

Community Crossings Matching Grant

Call for Projects Update

UPDATE 2020-2 Call for Projects The COVID-19 pandemic has significantly challenged the global economy in recent months. In Indiana, state and local revenue streams are well below forecasts resulting from steps taken to slow the spread of the illness. As a result, the state will hold on issuing a second call for Community Crossings grants in July 2020 but INDOT and the State Budget Agency will continue to monitor the financial outlook and re-evaluate options in September following updated revenue forecasts. This page will be updated as more information becomes available.

2020-1 Awards In March 2020, INDOT awarded \$126.5 million to 214 Indiana communities through the 2020-1 CCMG Call for Projects. Communities awarded during that call for projects, held in January, can be assured that they will receive the state matching funds as awarded. Many of those communities are moving forward with those awarded projects now and will receive their state funds early in the new fiscal year, which begins in July 2020.
