

Puddleducks Weekly Newsletter

For week commencing: Monday 14th October 2019

General Information:

We still have chicken pox in the setting, we also now have hand foot and mouth and a sickness bug.

Regarding the sickness bug, we would ask that parents keep their children home until 48 hours from their last occurrence, whether that be sickness or loose bowel movement. This is our policy which is in line with the NHS guidelines from the health protection Agency. We would also ask that any siblings or parents that have the sickness bug, do not enter the building. You may e mail or ring us to say you are bringing your child to us and we will meet you at the door as they arrive.

Cooked Meals:

This week is menu 3

Next order form (for dates Wednesday 23rd October to Tuesday 5th November) to be received by 15/10/19.
