

Product Specification Sheet

M70FE

M70E

(Standard Accessories: 1x handle & 1x strap package)
(Item #'s R282H834 & 2040)

Functions:

This RehabPro E-Series pulley widens the scope of rehab by offering an economical rehab option with a starting weight as low as 2.5 lbs. As the initial focus of rehab is being fulfilled by lighter pulleys (i.e. restore the functional qualities of circulation, flexibility, coordination and endurance) the focus now shifts towards strength/endurance and strength (i.e. lower # of reps and higher resistance). The 1:1 weight-to-resistance ratio, 70 lb. weight stack supplies an adequate amount of resistance to bring an average individual back to normal daily activity. Additional accessories to widen the exercise possibilities of M70E & M70FE are available and displayed at www.rehabpropulleys.com.

Specifications:

Vendor Parts Number: M70E, M70FE

Construction:

1:1 weight-to-resistance ratio weights stack. The weight stack consists of 12x 2.5 lb. and 8x 5.0 lb. weight plates. The starting weight is 2.50 lbs.

The pulley is TIG welded and made of durable, powder coated high strength steel.

The 3/16" non-stretchable marine rope adjusts in height and length along an 80" - 2" interval rope adjustment bar w/ spring-loaded plungers.

The pulley comes with 3/4" solid steel, chromium plated, self-adjusting guide rods ensuring smooth tracking of the weight stack.

Assembly: None required.

Product Dimensions M70E: 80" (T) x 18" (W) x 8" (D). 125 lbs.

Shipping Dimensions M70E: 87"x 18"x 14". 175 lbs. (Class 70)

Product Dimensions M70FE: 80" (T) x 37"x 37". 175 lbs.

Shipping Dimensions M70FE 84" (L) x 38" (W) x 38" (H). 225 lbs. (Class 250)
