The bedroom is a beautiful comfortable mix of upscale transitional furniture accented by large eye catching pieces. There are touches of dressy Italian accessories and occasional pieces to fuse the suite with the architectural style of this Italianate home. All of the latest electronic equipment is tastefully placed to keep the bedroom feeling serene. Included are a large flat screen T.V., a new generation laptop, and a state of the art sound system. The grandparents can surf the web, play video games with the kids, or just enjoy the space alone.

Nancy Corzine's newest additions are featured: the Canton bed and the Chambord settee, along with Niermann Weeks' quatrefoil armoire and an aged-mirror Milano chest in a warm silver leaf finish. The existing large crown molding features a beautiful Borghese finish. The contrasting dark woods, textured neutral fabrics, and a thick wool rug with a contemporary blue/

green crackle result in a strong visual display that is timeless and easy to live with.

The suite also has a elegant entry and remodeled bathroom, which now has his and hers sinks as well as a woman's vanity and a popular spa shower. A striking mosaic in the room frames the handmade clear blue crackle tiles and shows off the deco inspired bath fixtures with a black bronze finish.

Visitors to the Pasadena Showcase House will find the chic grandparents suite a luxurious space packed with many thought provoking design ideas, furnishings, and materials. Grandparents and guests will feel right at home in this "chic suite."
