

Hampden HSC-1 Mobile Storage Bench with Trailer Mounting

The Hampden **Model HSC-1** Mobile Storage Bench with Trailer Mounting is designed for rugged use with plenty of storage and working area. These are the same benches we use with our own best training equipment. When traveling from one place to another, you have a place to store things and keep them in place. The trailer mounting will keep the bench in place but is easily unlatched when you need to move it around.

Available with lockable doors. Extra heavy-duty construction of code gauge furniture stock steel, finished in instrument tan texture enamel, with a 1" wood core top covered with plastic laminate.

All Hampden units are available for operation at any voltage or frequency
