

PARKING

To ensure safe parking, drop-off, and pick-up of our dancers, we request the following:

- Please be courteous to the residents of Main Avenue. The studio brings an enormous influx of traffic to their neighborhood, and we must respect that we are visitors.
- Please reserve parking in front of the studio for our student drivers who often leave after dark.
- There is ample parking available on the east side of the building in the back corner. The building owner put lights along Liebo Alley so that we have visibility. Do not pull into the alley and stop to allow dancers to get out of the car. Doing this causes a dangerous situation when someone behind you is left with the back of their car sticking out onto Main Avenue.
- Please give yourselves a little extra time to get to the studio not to rush when parking.
- There is another lot next to the Municipal building located on Washington Avenue and Cherry Street. Both the alley and two parking lots are under the care of the Myerstown Borough (plowing, etc.)
- Do not double park on the street or in the loading zone. It has been communicated to us by the Myerstown Borough that parking will be regulated, and tickets will be given to those parked illegally.
- Do not park immediately behind the studio, reserved for business employees who share this building and faculty of Generation Dance.

Thank you for your attention to these policies. We look forward to seeing your dancer in class!
