### Leadership Training: Video

“The Fifteen Invaluable Laws of Growth” by John C. Maxwell

**Law 13: The Law of Modeling – It is hard to improve when you have no one else but yourself to follow.**

1. A worthy EXAMPLE.
2. PROVEN experience.
3. FRIENDSHIP and SUPPORT.
4. Track record of MOVING in people’s lives.

**Who are you modeling yourself after? For whom are you being a model?**

**Law 14: The Law of Expansion – Growth always increases our capacity. There is no finish line!**

1. 90% is your POTENTIAL number.
2. **Reaching that potential is based on changing how we THINK and what we DO.**
3. Stop thinking MORE work and start thinking WHAT works?
4. Stop thinking CAN i and start thinking HOW CAN i?
5. Stop thinking one door ONE way and start thinking many doors MANY ways.
6. Stop doing only those things you HAVE DONE and start doing the things YOU COULD OR SHOULD DO
7. Get out of your COMFORT zone, stay in your STRENGTH zone.
8. **Stop doing WHAT is expected and start doing MORE than is expected.**
9. **Stop doing important things every ONCE IN A WHILE and start doing important things every DAY.**

**What limits growth? Not capacity, but rigidity. Remain willing to be stretched.**
