Buffing – Foam & Wool Pads

HB 100 HI-BUFF™ Black Heavy Cut Edge Foam Buffing Pad

Work fast with confidence! Heat dissipates quickly through the open cell foam, safeguarding expensive paints and clear coats. The hook & loop backer is double bonded: hot-glued to the foam, then heat sealed at the edge for permanence. Our VP-10T backing Plate locks snugly into the recessed back of the pad for perfect centering. It's almost impossible for the plate to contact the car's finish. The BLACK foam is very aggressive and works fast with reducing risk of burning. Use for heavily oxidized or pitted paint finishes. Removes wet sand scratches. Popular where speed is vital.

HB 200 HI-BUFF™ Yellow Medium Cut Edge Foam Buffing Pad

Work fast with confidence! Heat dissipates quickly through the open cell foam, safeguarding expensive paints and clear coats. The hook & loop backer is double bonded: hot-glued to the foam, then heat sealed at the edge for permanence. Our VP-10T backing Plate locks snugly into the recessed back of the pad for perfect centering. It's almost impossible for the plate to contact the car's finish. The YELLOW foam is the everyday cutting pad-for average/medium to light oxidation.

HB 300 HI-BUFF™ Green Light Cut Edge Foam Buffing Pad

Work fast with confidence! Heat dissipates quickly through the open cell foam, safeguarding expensive paints and clear coats. The hook & loop backer is double bonded: hot-glued to the foam, then heat sealed at the edge for permanence. Our VP-10T backing Plate locks snugly into the recessed back of the pad for perfect centering. It's almost impossible for the plate to contact the car's finish. The GREEN foam is our most versatile pad.

HB 400 HI-BUFF™ Blue Soft Polish Edge Foam Buffing Pad

Work fast with confidence! Heat dissipates quickly through the open cell foam, safeguarding expensive paints and clear coats. The hook & loop backer is double bonded: hot-glued to the foam, then heat sealed at the edge for permanence. Our VP-10T backing Plate locks snugly into the recessed back of the pad for perfect centering. It's almost impossible for the plate to contact the car's finish. Use the BLUE foam for scratchless polishing on any surface! Apply wax or polish, removes swirl marks. Produces a deep gloss.

HB 500 HI-BUFF™ White Final Finish Edge Foam Buffing Pad

Work fast with confidence! Heat dissipates quickly through the open cell foam, safeguarding expensive paints and clear coats. The hook & loop backer is double bonded: hot-glued to the foam, then heat sealed at the edge for permanence. Our VP-10T backing Plate locks snugly into the recessed back of the pad for perfect centering. It's almost impossible for the plate to contact the car's finish. WHITE foam is for the ultra smooth surface. Creates a bold crystalline gloss. For new, exotic or expertly restored cars.

Foam & Wool Pads

HB-5 Final Polish Deluxe Euro Foam Pad New and improved Hi-Buff™ quality 9 in. foam pads with deep-dish bowl design. Use one backing plate (our VP-10 or VP-11) for both wool and foam. Rounded edge substantially reduces risk of burning painted surface from the edge of the backing plate. More defined rigid construction allows for increased durability, easy self-centering of hook backing plate, better control with high speed buffing action. The BLACK final finish foam is for ultra smooth surfaces. Creates a bold crystalline gloss. For new, exotic or expertly restored cars.
