Join us for a transformational journey into the intelligence of water — inspired by the groundbreaking work of Dr. Masaru Emoto and Veda Austin.

Led by Michiko Daly, this immersive, hands-on experience blends science, spirit, and consciousness into a deeply impactful exploration of your connection with water.

What You'll Experience:

- Discover how your **energy, intention, and frequency** influence the structure of water
- Participate in a **live water crystallography experiment** — freezing water samples charged with your own energy and observing the results

**Scan QR to reserve your space today,
