

Hello, so let me start this by saying region 15 is making a comeback. We were a huge region and very active and it looks like slowly but surely, we are bringing this back. Went from meeting of 7 to 10 people, back to 25 or 30. Let's keep pushing. People say (helmet law is over why should we be active....) simple. We don't train an army the day before a war.... we continue to train grow and adapt and when a war comes, we will be ready. Such as the insurance fight we have right now.

I'm including a few pictures of our regional softball game. Wow what a turn out for the corona world. Approx. 60 people. It was a great time and I don't know about everyone else, but I was glad to have Monday off to recover. We had Region 15, 18 and if u look really close Region 14 flag is up there also. Ha ha. Unfortunately Region 18 (captain Mike) took the trophy home.... this trophy now has a bounty on it and Region 15 can't wait to win it back. With that being said, I want to take a few seconds to say thank you to everyone. Mike and Lenea, Pinhead, Chung and Kathy, Pam and George, Stacy, George Bennet, sass and Mike, everyone for helping us out with our events and helping me as a new RC with ideas. Without a group none of this exists. So, thank you all!!

Region 15 has our Blue Balls run coming up and we will be accepting donations if anyone can help please contact us.

Until next time thank you for your time and can't wait to count the turnout at the next meeting.
