

Barrett Ross Ginsberg, M.D., F.A.C.S.

***Life-Long Sight Plan***

Should you choose Dr. Ginsberg as your ophthalmologist, it is important for you to understand his commitment to a lifetime of quality vision and eye health. The *Life-Long Sight Plan* offers you this lifetime of quality visual health by a series of preventive maintenance diagnostics and routine visits. This plan begins on your initial visit.

Upon your first visit with Dr. Ginsberg, our staff will introduce you to the clinic and review all history forms with you and help you fill them out. We take great pride in making sure that your profile is complete which includes your preferred address and contact method, your email address, your primary care physician, any consulting physicians and any information you think is important for us to know. We strive to keep all of your health care providers up-to-date about your eye health.

Dr. Ginsberg and his staff will guide you through the most complete initial eye exam and discuss his recommended diagnostic tests to be done that day. By having these baseline exams and repeating them regularly throughout your life, you and your eyecare provider will have the necessary information to keep your eyes healthy and detect any changes early and make the necessary arrangements.

The *Life-Long Sight Plan* includes the following diagnostic tests and access to Dr. Ginsberg and his staff 24 hours-a-day through the main office number and the office email. We will be there for you.

- Wavefront Guided Refraction to ensure the proper spectacle prescription
  - Wavefront Guided Corneal Topography
  - iWellness OCT Retinal Evaluation
  - iWellness OCT Glaucoma Evaluation
  - OCT Guided Corneal Evaluation
  - Color Optic Nerve and Retinal Photos
