RE: Kris B. Kimmel

To Whom It May Concern:

I had the pleasure of working with Kris Kimmel during the design and construction of Phase 4 (Houses 4 and 5), of the Cornell University West Campus Residential Initiative (WCRI). During that time, Kris has proven himself to be a hard working member of the project team and has shown great resources and ingenuity in solving problems.

Kris has a strong grasp of the design and construction process and the outstanding ability to visualize all of the pieces that need to be coordinated in order to facilitate the proper function of all of the different aspects of the buildings varied systems. Kris's work on the coordination of Phase 4 of the WCRI project was invaluable and a large part of helping the complex project move forward toward completion.

I would recommend Kris Kimmel and his coordination skills as a member of any design/construction team. I would not hesitate to work with Kris in the future.

Very truly yours,

Kelly Wm. Quain,
Project Engineer
