

1976 TR6 for Sale, Asking \$12,000 or Best Offer

This 1976 Triumph TR6 is mechanically in very good condition, the body is very good except it needs a new top and the seats are showing signs of wear. All maintenance records come with the car. The odometer shows 34,000, which I believe are the original miles, but I have no documentation to substantiate the mileage.

I bought this TR6 in May of 2006 with 30,554 miles on it. I can find maintenance records back to 09/2004 from the previous owner showing 29,696 miles. I had it in a shop for five years during which time it did not run. I have no documentation that goes back beyond 2004.

The Commission Number is CF52196U. In 2018 tires, battery, clutch, master cylinder, new exhaust system, door guards and handles were replaced. It was repainted about 5 years ago. It runs great. I will accept the best "reasonable" offer. The location of this TR6 is Kingwood, TX 77345. Contact Ken Sever at 281-360-5690 or by e-mail at ken.sever@usa.net
