

This approval is granted with the understanding that the local unit will allow public access to the computerized tax roll and current tax collection records using a computer terminal under the supervision of tax collection personnel. The local unit treasurer must accept responsibility for all tax payment validations entered in the computerized tax roll. Failure to provide adequate time to assess the tax roll may be cause for the issuance of an order to provide a terminal for public viewing or revocation of the authorization to use a computerized database as the tax roll.

If you have any questions concerning this matter, please contact LaNiece Denstead, Departmental Analyst, State Tax Commission, at (517)335-2311 or densteadl@michigan.gov.

Sincerely,

Heather S. Frick, Executive Director
State Tax Commission

Cc: Local Unit Assessor
County Treasurer
County Equalization Director
