

Equine Welfare Alliance [EWA]

EWA is dedicated to ending the slaughter of American Horses and the preservation and protection of Wild Horses & Burros on public lands. We are unique in that we provide comprehensive information on equine welfare not available in one source – anywhere!

Did you know...

The economy is not the main driver for a decline in Equine Welfare. It's hay production!

Don't be fooled by slaughter proponents that claim it's the lack of slaughter. Without any decrease in the number of US equines slaughtered each year, there is no lack of slaughter.

Read more at www.equinewelfarealliance.org

Fact: Communities with horse slaughter plants face...

- Increased crime rates
- Increased horse theft
- Decreased property values
- Environmental hazards
- Increased municipal tax burdens

Fact:

- US Equines are not raised as food animals
- Many medications routinely administered to equines are banned in food animals

Visit www.equinewelfarealliance.org for presentations, graphs, white papers, studies and reports on equine welfare and the dangers of horse meat as it relates to food safety. Recently released is a comprehensive 2014 Equine Welfare Report that includes a legislative section.

Call your federal legislators and ask them to support any efforts and legislation that will stop the slaughter of American Horses and protect our wild horses and burros on our public land.
