STRIVING TO THE TOP

It is a long and hard journey to the top. Everyone attempts to make it, not everyone succeeds. To the Quemado Eagles **striving to the top** is an effort that never ends. Faculty, students, and community members aid in this effort by contributing to academic and/or athletic programs, enabling our school to excel in its journey to the top.

QUEMADO SCHOOLS

Over the past couple of years the Quemado Eagles have reached beyond past achievements for those we can call our own that will bring pride and respect to the Quemado Schools. We have not only achieved these academically, but also athletically. We have accomplished our goals with the help of a good faculty selected by the school board and the superintendent.

We appreciate the parents, students, and community for helping the custodial staff maintain the appearance of the school. This has been good for student morale, and the effort is respected. Pride in our school has drawn participation in school activities in which sportsmanship has played a great part and has helped to bring success to our school and many of its students.

Have you considered

JENNI

Jenni with her best friend Nicole.

Jenni Kallio was Quemado's foreign exchange student from Lapland, Finland this year. Before she arrived many students couldn't pinpoint her home country on a map. But now, many have been inspired to go see Finland for themselves.

Within the first few weeks of school, the shy, withdrawn blonde with the pretty blue eyes blossomed into a boisterous, humorous personality, as her American classmates overcame their reticence and began asking her questions.

Jenni has an excellent grasp of American English and has done well scholastically here at Quemado. She also got into the spirit of American sports by managing the girls' volleyball team.

Jenni has made a lasting impression on students and teachers alike. We will all miss her, especially her sponsoring family — Sandra, Ed, and Joni Heinsohn.
