Welcome, you will be staying at: 767 N High St. You can drive through the circled entrance to access the parking lot, or use the alley behind the condo to enter the parking lot.

You will want to park along the brick wall or underneath the cut out where your lock box is located. Your lockbox will be where the red circle is. It will be on the brick wall next to the door.

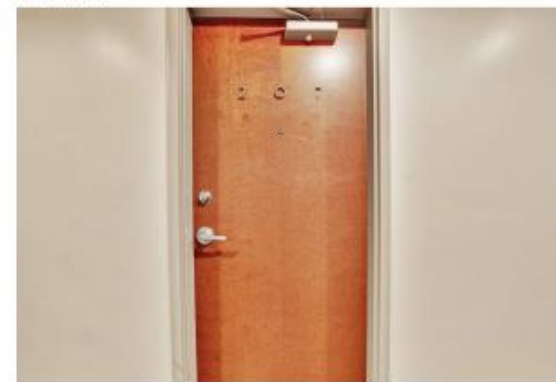

Aerial view. Please make sure you get the blue parking permit from the counter when going inside the unit and place the blue parking permit in your car while parking along the brick wall and spaces near the lockbox. If you park by Axis you may be towed.

The code to the lockbox is 1694. It is the lockbox with the HEART on it. You will grab the key fob out of the lockbox and hold the key fob up to the fob reader next to the closest door. Wait for it to turn green, open the door and head inside the building. The door might stick, you will have to pull a little harder.

Once inside you will come to this hallway and take the steps to the first floor. Go in through the door, it will be the first door you see on the wall to your right. Room 208. The code to the door is 1694.

You have arrived. The code to 208's electronic door is 1694. Have a nice stay! Please reach out if you have any further questions.
