

CAMPS AND GROUPS

We know that varied treatment options may benefit your child. As such we offer camps and social skills groups as another treatment option.

Children will be grouped based upon age, strengths, and needs. All groups are designed and run by a licensed or certified therapist with the support of clinic aids or ABA techs as needed.

Camps will address

- specific skill development such as fine motor, motor planning or play
- social interaction and communication
- sharing

Social Skills Groups will address

- conversing with peers
- nonverbal interaction/body language
- personal space awareness
- playing with peers; and
- and additional social skills domains specific to your child

Activities may include, but are not limited to tabletop games, role playing, music and movement, arts and crafts, LEGO® building, and more!

Please call us for details on upcoming camps and groups being offered.
