Attachment C – 2008 MSGP	

SECTION 1: FACILITY DESCRIPTION AND CONTACT INFORMATION

1.1 Facility Information

Instructions:

- You will need the information from this section to complete your NOI.
- For further instruction, refer to the 2008 MSGP NOI form and instructions – specifically sections C and D of the NOI. A copy of the 2008 MSGP NOI is available at www.epa.gov/npdes/stormwater/msgp (Appendix G of the permit)
- Detailed information on determining your site's latitude and longitude can be found at www.epa.gov/npdes/stormwater/latlong.
- You must include a copy of the 2008 MSGP, or a reference or link to where a copy can be found, in Attachment C of your SWPPP.

Facility Information

Name of Facility: Taylor Marine Corp.

Street: 93 Central Street

City: Brant Rock, P.O. Box 697 State: MA ZIP Code: 02020

County or Similar Subdivision: Plymouth

Permit Tracking Number: _____ (if covered under a previous permit)

Latitude/Longitude (Use **one** of three possible formats, and specify method)

Latitude:

1. 42 ° 04 ' 55" N (degrees, minutes, seconds)

2. __ ° __ ' __" N (degrees, minutes, decimal)

3. __ . ____ ° N (decimal)

Longitude:

1. 70 ° 38 ' 43" W (degrees, minutes, seconds)

2. __ ° __ ' __" W (degrees, minutes, decimal)

3. __ . ____ ° W (decimal)

Method for determining latitude/longitude (check one):

☐ USGS topographic map (specify scale: _____)

☒ EPA Web site

☐ GPS

☐ Other (please specify): _____

Is the facility located in Indian Country? ☐ Yes ☒ No

If yes, name of Reservation, or if not part of a Reservation, indicate "not applicable." _____

Is this facility considered a Federal Facility?

☐ Yes

☒ No

Estimated area of industrial activity at site exposed to stormwater: 1 (acres)

Discharge Information

Does this facility discharge stormwater into an MS4? ☐ Yes ☒ No

If yes, name of MS4 operator: ____

Name(s) of water(s) that receive stormwater from your facility Green Harbor River _____

Are any of your discharges directly into any segment of an "impaired" water? ☒ Yes ☐ No

If Yes, identify name of the impaired water (and segment, if applicable): Green Harbor MA 94-11 _____

Identify the pollutant(s) causing the impairment: Elevated fecal Coliform (suspected source Municipal Separate Storm Sewer systems) _____

For pollutants identified, which do you have reason to believe will be present in your discharge? None _____

For pollutants identified, which have a completed TMDL? _____

Do you discharge into a receiving water designated as a Tier 2 (or Tier 2.5) water? ☐ Yes ☒ No

Are any of your stormwater discharges subject to effluent guidelines? ☐ Yes ☒ No

If Yes, which guidelines apply? _____

Primary SIC Code or 2-letter Activity Code: Q1 - 4493
(refer to Appendix D of the 2008 MSGP)

Identify your applicable sector and subsector: Sector Q – Water Transportation facility - Marina

1.2 Contact Information/Responsible Parties

Instructions:

- List the facility operator(s), facility owner, and 24 hour emergency contact. Indicate respective responsibilities, where appropriate.
- You will need the information from this section of the SWPPP Template for your NOI.
- Refer to Section B of the NOI instructions (available in Appendix G of the 2008 MSGP).

Facility Operator (s):

Name: John W. Taylor
Address: P.O. Box 697
City, State, Zip Code: Brant Rock, MA 02020
Telephone Number: 781-834-6344
Email address: taylormarinecorp@aol.com
Fax number: 781-834-6344

Facility Owner (s):

Name: OLD ALLIE LLC
Address: P.O. Box 697

City, State, Zip Code: Brant Rock, MA 02020-0697
Telephone Number: 781-837-9617
Email address: taylormarinecorp@aol.com
Fax number: Insert fax number (optional)

SWPPP Contact:

Name: John W. Taylor
Telephone number: 781-837-9617
Email address: taylormarinecorp@aol.com
Fax number: Insert fax number (optional)

1.3 Stormwater Pollution Prevention Team

Instructions (see 2008 MSGP Part 5.1.1):

- Identify the staff members (by name or title) that comprise the facility's stormwater pollution prevention team as well as their individual responsibilities.
- Your stormwater pollution prevention team is responsible for assisting the facility manager in developing and revising the facility's SWPPP, implementing and maintaining control measures/BMPs, and taking corrective actions where required. Each member of the stormwater pollution prevention team must have ready access to either an electronic or paper copy of applicable portions of the MSGP and your SWPPP.

Staff Names	Individual Responsibilities
John W. Taylor	Operator, Owner
Kevin Grady	Consultant, Prepare SWPPP

1.4 Activities at the Facility

Instructions (see 2008 MSGP Part 5.1.2):

- Provide a general description of the nature of the industrial activities at your facility.

Marina – Pressure Washing, winter boat preparation and storage. This is a small Maina. Most industrial activities associated with this industry are done off site.

1.5 *General Location Map*

Instructions (see 2008 MSGP Part 5.1.2):

- Provide a general location map (e.g., U.S. Geological Survey (USGS) quadrangle map) with enough detail to identify the location of your facility and all receiving waters for your stormwater discharges (include as Attachment A of this SWPPP Template).

Include a copy of the general location map for this facility in Attachment A.

1.6 Site Map

Instructions (see 2008 MSGP Part 5.1.2):

- Include a map showing the following information. The site map should be included as Attachment B of this SWPPP Template.
 - the size of the property in acres;
 - the location and extent of significant structures and impervious surfaces;
 - directions of stormwater flow (use arrows);
 - locations of all existing structural control measures;
 - locations of all receiving waters in the immediate vicinity of your facility, indicating if any of the waters are impaired and, if so, whether the waters have TMDLs established for them;
 - locations of all stormwater conveyances including ditches, pipes, and swales;
 - locations of potential pollutant sources identified under MSGP, Part 5.1.3.2;
 - locations where significant spills or leaks identified under MSGP, Part 5.1.3.3 have occurred;
 - locations of all stormwater monitoring points;
 - locations of stormwater inlets and outfalls, with a unique identification code for each outfall (e.g., Outfall No. 1, No. 2, etc), indicating if you are treating one or more outfalls as "substantially identical" under MSGP, Parts 4.2.3, 5.1.5.2, and 6.1.1, and an approximate outline of the areas draining to each outfall;
 - municipal separate storm sewer systems, where your stormwater discharges to them;
 - locations and descriptions of all non-stormwater discharges identified under MSGP, Part 2.1.2.10;
 - locations of the following activities where such activities are exposed to precipitation:
 - fueling stations;
 - vehicle and equipment maintenance and/or cleaning areas;
 - loading/unloading areas;
 - locations used for the treatment, storage, or disposal of wastes;
 - liquid storage tanks;
 - processing and storage areas;
 - immediate access roads and rail lines used or traveled by carriers of raw materials, manufactured products, waste material, or by-products used or created by the facility;
 - transfer areas for substances in bulk;
 - machinery; and
 - locations and sources of run-on to your site from adjacent property that contains significant quantities of pollutants.

Include a copy of the site map for this facility in Attachment B.

SECTION 2: POTENTIAL POLLUTANT SOURCES

Instructions (see 2008 MSGP Part 5.1.3):

- In this section, you are required to describe areas at your facility where industrial materials or activities are exposed to stormwater or from which allowable non-stormwater discharges are released.

2.1 *Industrial Activity and Associated Pollutants*

Instructions (see 2008 MSGP Parts 5.1.3.1 and 5.1.3.2):

- Include a list of industrial activities exposed to stormwater (e.g., material storage; equipment/vehicle fueling, maintenance, and cleaning; cutting steel beams) and the pollutants or pollutant constituents (e.g., motor oil, fuel, battery acid, and cleaning solvents) associated with these activities.
- In your list of pollutants associated with your industrial activities, include all significant materials that have been handled, treated, stored, or disposed, and that have been exposed to stormwater in the 3 years prior to the date you prepare your SWPPP.

Industrial Activity	Associated Pollutants
Boat Washing, Pressure Washing Area	No cleaning agents are used, pollutants include paint from boats, Antifreeze (Non-toxic propylene glycol formula)
Vehicle & Equipment fueling	Gasoline & Deisel Fuel

2.2 Spills and Leaks

Instructions (See 2008 MSGP Part 5.1.3.3):

- Include the following in this section:
 - **Potential spills and leaks:** A description of where potential spills and leaks could occur at your site that could contribute pollutants to your stormwater discharge, and specify which outfall(s) are likely to be affected by such spills and leaks.
 - **Past spills and leaks:** A description of significant spills and leaks in the past 3 years of oil or toxic or hazardous pollutants that actually occurred at exposed areas, or that drained to a stormwater conveyance.
- *Note: Significant spills and leaks include, but are not limited to, releases of oil or hazardous substances in excess of quantities that are reportable under CWA Section 311 (see 40 CFR 110.6 and 40 CFR 117.21) or Section 102 of the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA), 42 USC §9602.*

Areas of Site Where Potential Spills/Leaks Could Occur

Location	Outfalls
Fuel Tank and fill locations	4" pvc outfall pipe
Boat Cleanin, Pressure wash area	4" pvc outfall pipe

Description of Past Spills/Leaks

Date	Description	Outfalls
	No leaks reported	

2.3 Non-Stormwater Discharges Documentation

Instructions (see 2008 MSGP Part 5.1.3.4):

- The questions below require you to provide documentation of the following:
 - Your evaluation for the presence of non-stormwater discharges at your site; and
 - Your elimination of any unauthorized non-stormwater discharges.

- Date of evaluation: 1/29/09
- Description of the evaluation criteria used: visual inspection and information from owner
- List of the outfalls or onsite drainage points that were directly observed during the evaluation:
There ia 1 single 4" outfall on site. Any other areas flow offsite prior to reaching waters

- Different types of non-stormwater discharge(s) and source locations: N/A
- Action(s) taken, such as a list of control measures used to eliminate unauthorized discharge(s), if any were identified. For example, a floor drain was sealed, a sink drain was re-routed to sanitary, or an NPDES permit application was submitted for an unauthorized cooling water discharge: N/A

2.4 Salt Storage

Instructions (see 2008 MSGP Part 5.1.3.5):

- Document the location of any storage piles containing salt used for deicing or other commercial or industrial purposes.
- Note: You will be asked additional questions concerning salt storage in Section 3.7 of this SWPPP template, below.

N/A there is no Salt Storage at the facility

2.5 Sampling Data Summary

Instructions (See 2008 MSGP Part 5.1.3.6):

- Summarize all stormwater sampling data collected from your permitted outfalls during the previous permit term.

There were no Samples collected during the previous permit

SECTION 3: STORMWATER CONTROL MEASURES

Instructions (See 2008 MSGP Parts 5.1.4.1 and 2.1.2):

- In Sections 3.1 - 3.12 of this SWPPP template, you are asked to describe the stormwater control measures that you have installed at your site to meet each of the permit's "non-numeric effluent limits" in Part 2.1.2 of the 2008 MSGP.

3.1 Minimize Exposure

Instructions (see 2008 MSGP Part 2.1.2.1):

- Describe any structural controls or practices used to minimize the exposure of industrial activities to rain, snow, snowmelt, and runoff. Describe where the controls or practices are being implemented at your site.

Most Activities are conducted within the existing buildings. A portable rubberized collection pool with filter is set at each boat washing site.

3.2 Good Housekeeping

Instructions (see 2008 MSGP Parts 2.1.2.2 and 5.1.5.1):

Describe any practices you are implementing to keep exposed areas of your site clean. Describe where each practice is being implemented at your site. Include here your schedule for: (1) regular pickup and disposal of waste materials, and (2) routine inspections for leaks and of the condition of drums, tanks, and containers.

INSERT DESCRIPTION OF CONTROL MEASURES HERE.

3.3 Maintenance

Instructions (see 2008 MSGP Parts 2.1.2.3 and 5.1.5.1):

- Describe procedures (1) to maintain industrial equipment so that spills/leaks are avoided, and (2) to maintain any of your site's control measures in effective operating condition. Include the schedule you will follow for such maintenance activities. Describe where each applicable procedure is being implemented at the site.

Most activities are completed inside existing building or handled off-site by qualified professionals. Fuel tanks require thorough state inspections every 3 years. Boat washing collection pool to be visually inspected prior to use each season.

3.4 Spill Prevention and Response

Instructions (see 2008 MSGP Parts 2.1.2.4 and 5.1.5.1):

- Describe any structural controls or procedures used to minimize the potential for leaks, spills, and other releases. You must implement the following at a minimum:
 - Procedures for plainly labeling containers (e.g., "Used Oil," "Spent Solvents," "Fertilizers and Pesticides," etc.) that could be susceptible to spillage or leakage to encourage proper handling and facilitate rapid response if spills or leaks occur;
 - Preventative measures such as barriers between material storage and traffic areas, secondary containment provisions, and procedures for material storage and handling;
 - Procedures for expeditiously stopping, containing, and cleaning up leaks, spills, and other releases; and
 - Procedures for notification of appropriate facility personnel, emergency response agencies, and regulatory agencies.

Describe where each control is to be located or where applicable procedures will be implemented.

- Note: Some facilities may be required to develop a Spill Prevention Control and Countermeasure (SPCC) plan under a separate regulatory program (40 CFR 112). If you are required to develop an SPCC plan, or you already have one, you should include references to the relevant requirements from your plan.

No used oil is stored at the site. No Spent solvents, fertilizers or pesticides are kept on site. Should a fuel leak occur the Fire Department, Harbor Master and Coast Guard are to be notified. Containment booms to be set upon detection. Granular absorbent mineral products to be used on land spills. Spill Kit to be kept on site in accessible location.

3.5 Erosion and Sediment Controls

Instructions (see 2008 MSGP Part 2.1.2.5):

Describe structural or non-structural controls used at your site to stabilize exposed areas and contain runoff to minimize onsite erosion and potential offsite discharges of sediment. Note: You must at a minimum implement flow velocity dissipation devices at outfalls and discharge channels. Describe the location at your site where each control will be implemented.

The existing 4" outfall discharges through a retaining wall and discharge to tide water or rocks below. No sedimentation occurs at this site.

3.6 Management of Runoff

Instructions (See 2008 MSGP Part 2.1.2.6):

Describe controls used at your site to divert, infiltrate, reuse, contain, or otherwise reduce stormwater runoff. Describe the location at your site where each control will be implemented.

Most of the site is covered by crushed stone that promotes some infiltration and reduces concentration times.

3.7 Salt Storage Piles or Piles Containing Salt

Instructions (see 2008 MSGP Part 2.1.2.7):

If applicable, describe structures at your site that either cover or enclose salt storage piles or piles containing salt, or that prevent the discharge of stormwater from such piles. Also, describe any controls or procedures used to minimize exposure resulting from adding to or removing materials from the pile. Describe the location at your site where each control and/or procedure will be implemented.

N/A there is no Salt storage at this site.

3.8 MSGP Sector-Specific Non-Numeric Effluent Limits

Instructions (see 2008 MSGP Part 2.1.2.8):

- Describe any controls or procedures that will be used at your site to comply with any sector-specific requirements that apply to you in Part 8 of the 2008 MSGP. Describe the location at your site where each control and/or procedure will be implemented.
- Note: Sector-specific effluent limits apply to Sectors A, E, F, G, H, I, L, M, N, O, P, Q, R, S, T, U, V, X, Y, Z, and AA.

Pressure Washing Areas – are shown on site plan. Debris is collected on a portable rubberized collection pool with filter.

Blasting and Painting area – No blasting or painting is conducted by the marina. Individual boat owners shall are to use tarps for collecting any paint residue or spill and properly dispose of left over paints per slip agreement.

Material Storage – All material is stored inside buildings and clearly labeled

Engine Maintenance and Repair – The marina does not offer engine repair services at the facility. Engine repairs are conducted on the vessel or off-site.

Material Handling – Fuel Storage is within underground fuel tanks. Stormwater is not directed toward material storage areas.

Drydock Activities – N/A there is no drydock facility at this site.

3.9 Employee Training

Instructions (see 2008 MSGP Parts 2.1.2.9 and 5.1.5.1):

Describe your plan for training the employees who work in areas where industrial materials or activities are exposed to stormwater, or who are responsible for implementing activities necessary to meet the conditions of the 2008 MSGP, including all members of your Pollution Prevention Team. Included in your description must be the frequency of training (note: recommended at least one time per year), and the schedule you will follow.

There are no employees who work in areas where industrial materials or activities are exposed to stormwater. This is an owner operated facility.

3.10 Non-Stormwater Discharges

Instructions (see 2008 MSGP 2.1.2.10):

Describe how you eliminated any unauthorized non-stormwater discharges at your site. The unauthorized non-stormwater discharges include any non-stormwater discharges that are not specifically identified in Part 1.1.3 of the 2008 MSGP. Note: If this section is already addressed by your documentation for Section 2.3 of the SWPPP template, you can simply include a cross-reference to that section of your SWPPP.

No known non-stormwater discharges exist at the facility

3.11 Waste, Garbage and Floatable Debris

Instructions (see 2008 MSGP Part 2.1.2.11):

Describe controls and procedures that will be used at your site to minimize discharges of waste, garbage, and floatable debris. Describe the location at your site where each control and/or procedure will be implemented.

The trash dumpster is shown on the site plan. It is emptied twice per week.

3.12 Dust Generation and Vehicle Tracking of Industrial Materials

Instructions (see 2008 MSGP Part 2.1.2.12):

Describe controls and procedures you will use at your site to minimize the generation of dust and off-site tracking of raw, final, or waste materials. Describe the location at your site where each control and/or procedures will be implemented.

Dust generation is not anticipated at this site. The site is paved, covered by crushed stone or consists of stabilized beach.

SECTION 4: SCHEDULES AND PROCEDURES FOR MONITORING

Instructions (see 2008 MSGP Part 5.1.5.2):

- Describe your procedures for conducting the five types of analytical monitoring specified by the MSGP, where applicable to your facility, including:
 - Benchmark monitoring (2008 MSGP, Part 6.2.1 and relevant requirements in Part 8 and/or Part 9);
 - Effluent limitations guidelines monitoring (2008 MSGP, Part 6.2.2 and relevant requirements in Part 8);
 - State- or Tribal-specific monitoring (2008 MSGP, Part 6.2.3 and relevant requirements in Part 9);
 - Impaired waters monitoring (2008 MSGP, Part 6.2.4); and
 - Other monitoring as required by EPA (2008 MSGP, Part 6.2.5).
- Depending on the type of facility you operate, and the monitoring requirements to which you are subject, you must collect and analyze stormwater samples and document monitoring activities consistent with the procedures described in 2008 MSGP, Part 6 and Appendix B, Subsections 10 – 12, and any additional sector-specific or State/Tribal-specific requirements in 2008 MSGP, Parts 8 and 9, respectively. Refer to 2008 MSGP, Part 7 for reporting and recordkeeping requirements. Note: All monitoring must be conducted in accordance with the relevant sampling and analysis requirements at 40 CFR Part 136. Include in your description procedures for ensuring compliance with these requirements.
- If you are invoking the exception for inactive and unstaffed sites for benchmark monitoring, you must include in your SWPPP the information to support this claim as required by 2008 MSGP, Part 6.2.1.3.
- If you plan to use the substantially identical outfall exception for your benchmark monitoring requirements in 2008 MSGP, Part 6.2.1 and/or your quarterly visual assessment requirements in 2008 MSGP, Part 4.2.3, you must include the following documentation:
 - Location of each of the substantially identical outfalls;
 - Description of the general industrial activities conducted in the drainage area of each outfall;
 - Description of the control measures implemented in the drainage area of each outfall;
 - Description of the exposed materials located in the drainage area of each outfall that are likely to be significant contributors of pollutants to stormwater discharges;
 - An estimate of the runoff coefficient of the drainage areas (low = under 40%; medium = 40 to 65%; high = above 65%); and
 - Why the outfalls are expected to discharge substantially identical effluents.

For each type of monitoring, your SWPPP must include a description of:

1. **Sample Location(s).** Describe where samples will be collected, including any determination that two or more outfalls are substantially identical. Sampling location at 4" outfall shown on site plan

2. **Pollutant Parameters to be Sampled.** Include a list of the pollutant parameters that will be sampled and the frequency of sampling for each parameter. Copper, Tributyltin, Aluminum, Iron Lead, Zinc
3. **Monitoring Schedules.** Include the schedule you will follow for monitoring your stormwater discharge, including where applicable any alternate monitoring periods to be used for facilities in climates with irregular stormwater runoff (2008 MSGP, Part 6.1.6). Quarterly Benchmark testing for the first year, Annually following
4. **Numeric Limitations.** List here any pollutant parameters subject to numeric limits (effluent limitations guidelines), and which outfalls are subject to such limits. Note that numeric limits are only included for Sectors A, C, D, E, J, K, L, and O. INSERT TEXT HERE
5. **Procedures.** Describe procedures you will follow for collecting samples, including responsible staff who will be involved, logistics for taking and handling samples, laboratory to be used, etc. INSERT TEXT HERE

Note: It may be helpful to create a table with columns corresponding to # 1 - 5 above for each type of monitoring you are required to conduct.

Inactive and Unstaffed sites exception (if applicable)

If you are invoking the exception for inactive and unstaffed sites for benchmark monitoring, include information to support this claim.

N/A

Substantially identical outfall exception (if applicable)

If you plan to use the substantially identical outfall exception for your benchmark monitoring and/or quarterly visual assessment requirements, include the following information here to substantiate your claim that these outfalls are substantially identical:

- Location of each of the substantially identical outfalls:
- Description of the general industrial activities conducted in the drainage area of each outfall:
- Description of the control measures implemented in the drainage area of each outfall:
- Description of the exposed materials located in the drainage area of each outfall that are likely to be significant contributors of pollutants to stormwater discharges:
- An estimate of the runoff coefficient of the drainage areas (low=under 40%; medium=40 to 65%; high =above 65%);
- Why the outfalls are expected to discharge substantially identical effluents:

SECTION 5: INSPECTIONS

Instructions:

- Describe your procedures for performing the three types of inspections required by the 2008 MSGP, including:
 - Routine facility inspections (2008 MSGP, Part 4.1);
 - Quarterly visual assessment of stormwater discharges (2008 MSGP, Part 4.2); and
 - Comprehensive site inspections (2008 MSGP, Part 4.3).
- If you are invoking the exception for inactive and unstaffed sites relating to routine facility inspections and quarterly visual assessments, you must include in your SWPPP the information to support this claim as required by 2008 MSGP, Parts 4.1.3 and 4.2.3.
- A sample routine facility inspection and quarterly visual assessment form is available on EPA's MSGP website (www.epa.gov/npdes/stormwater/msgp) in the "Additional MSGP Documentation" file. Appendix I of the 2008 MSGP includes a comprehensive site inspection form (Annual Reporting Form).

For the routine facility inspections and the comprehensive site inspections to be performed at your site, include a description of the following:

- The names of the person(s), or the positions of the person(s), responsible for inspection: John Taylor
- The schedules to be used for conducting inspections. Include here any tentative schedule that will be used for facilities in climates with irregular stormwater runoff discharges (2008 MSGP, Part 4.2.3): Quarterly for the first year and Summer quarter there after and
- Specific areas of the facility to be inspected, including schedules for specific outfalls: 4" PVC outfall

For the quarterly visual assessments to be performed at your site, include a description of the following:

- The names of the person(s), or the positions of the person(s), responsible for inspection: John Taylor
- The schedules to be used for conducting inspections. Include here any tentative schedule that will be used for facilities in climates with irregular stormwater runoff discharges (2008 MSGP, Part 4.2.3): Quarterly inspections required and
- Specific areas of the facility to be inspected, including schedules for specific outfalls: 4" PVC outfall

Inactive and Unstaffed sites exception (if applicable)

If you are invoking the exception for inactive and unstaffed sites for your routine facility inspections and quarterly visual assessments, include information to support this claim.

N/A

SECTION 6: DOCUMENTATION TO SUPPORT ELIGIBILITY CONSIDERATIONS UNDER OTHER FEDERAL LAWS

6.1 *Documentation Regarding Endangered Species.*

Instructions (see 2008 MSGP Part 5.1.6.1):

Include any documentation you have that supports your determination of eligibility consistent with 2008 MSGP, Part 1.1.4.5 (Endangered and Threatened Species and Critical Habitat Protection). Refer to Appendix E of the 2008 MSGP for specific instructions for establishing eligibility.

The site is not located within Priority or Estimated habitat as shown on Massachusetts Natural Heritage and Endangered Species Program Atlas dated October 2008.

6.2 *Documentation Regarding Historic Properties*

Instructions (see 2008 MSGP Part 5.1.6.2):

Include any documentation you have that supports your determination of eligibility consistent with 2008 MSGP, Part 1.1.4.6 (Historic Properties Preservation). Refer to Appendix F of the 2008 MSGP for specific instructions for establishing eligibility.

The site is not a Historic Property

6.3 *Documentation Regarding NEPA Review (if applicable)*

Instructions (see 2008 MSGP Part 5.1.6.3):

Include any documentation you have that supports your determination of eligibility consistent with MSGP 2008 Part 1.1.2.5 (Discharges Subject to Any New Source Performance Standards).

N/A

SECTION 7: SWPPP CERTIFICATION

Instructions (see 2008 MSGP Part 5.1.7):

The following certification statement must be signed and dated by a person who meets the requirements of Appendix B, Subsection 11.A or 11.B, of the 2008 MSGP. Note: This certification must be re-signed in the event of a SWPPP modification in response to a Part 3.1 trigger for corrective action.

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gathered and evaluated the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

Name: John Taylor Title: president
Signature: [Handwritten Signature] Date: 1/14/09

SECTION 8: SWPPP MODIFICATIONS

Instructions (see 2008 MSGP Part 5.2):

- Your SWPPP is a “living” document and is required to be modified and updated, as necessary, in response to corrective actions. See Part 3.4 of the 2008 MSGP.
 - If you need to modify the SWPPP in response to a corrective action required by Part 3.1 of the 2008 MSGP, then the certification statement in section 7 of this SWPPP template must be re-signed in accordance with 2008 MSGP Appendix B, Subsection 11.A or 11.B.
 - For any other SWPPP modification, you should keep a log with a description of the modification, the name of the person making it, and the date and signature of that person. See 2008 MSGP Appendix B, Subsection 11.C.

INSERT LOG HERE or REFERENCE ATTACHMENT

SWPPP ATTACHMENTS

Attach the following documentation to the SWPPP:

Attachment A – General Location Map

Include a copy of your general location map in Attachment A.

Attachment B – Site Map

Include a copy of your site map(s) in Attachment B.

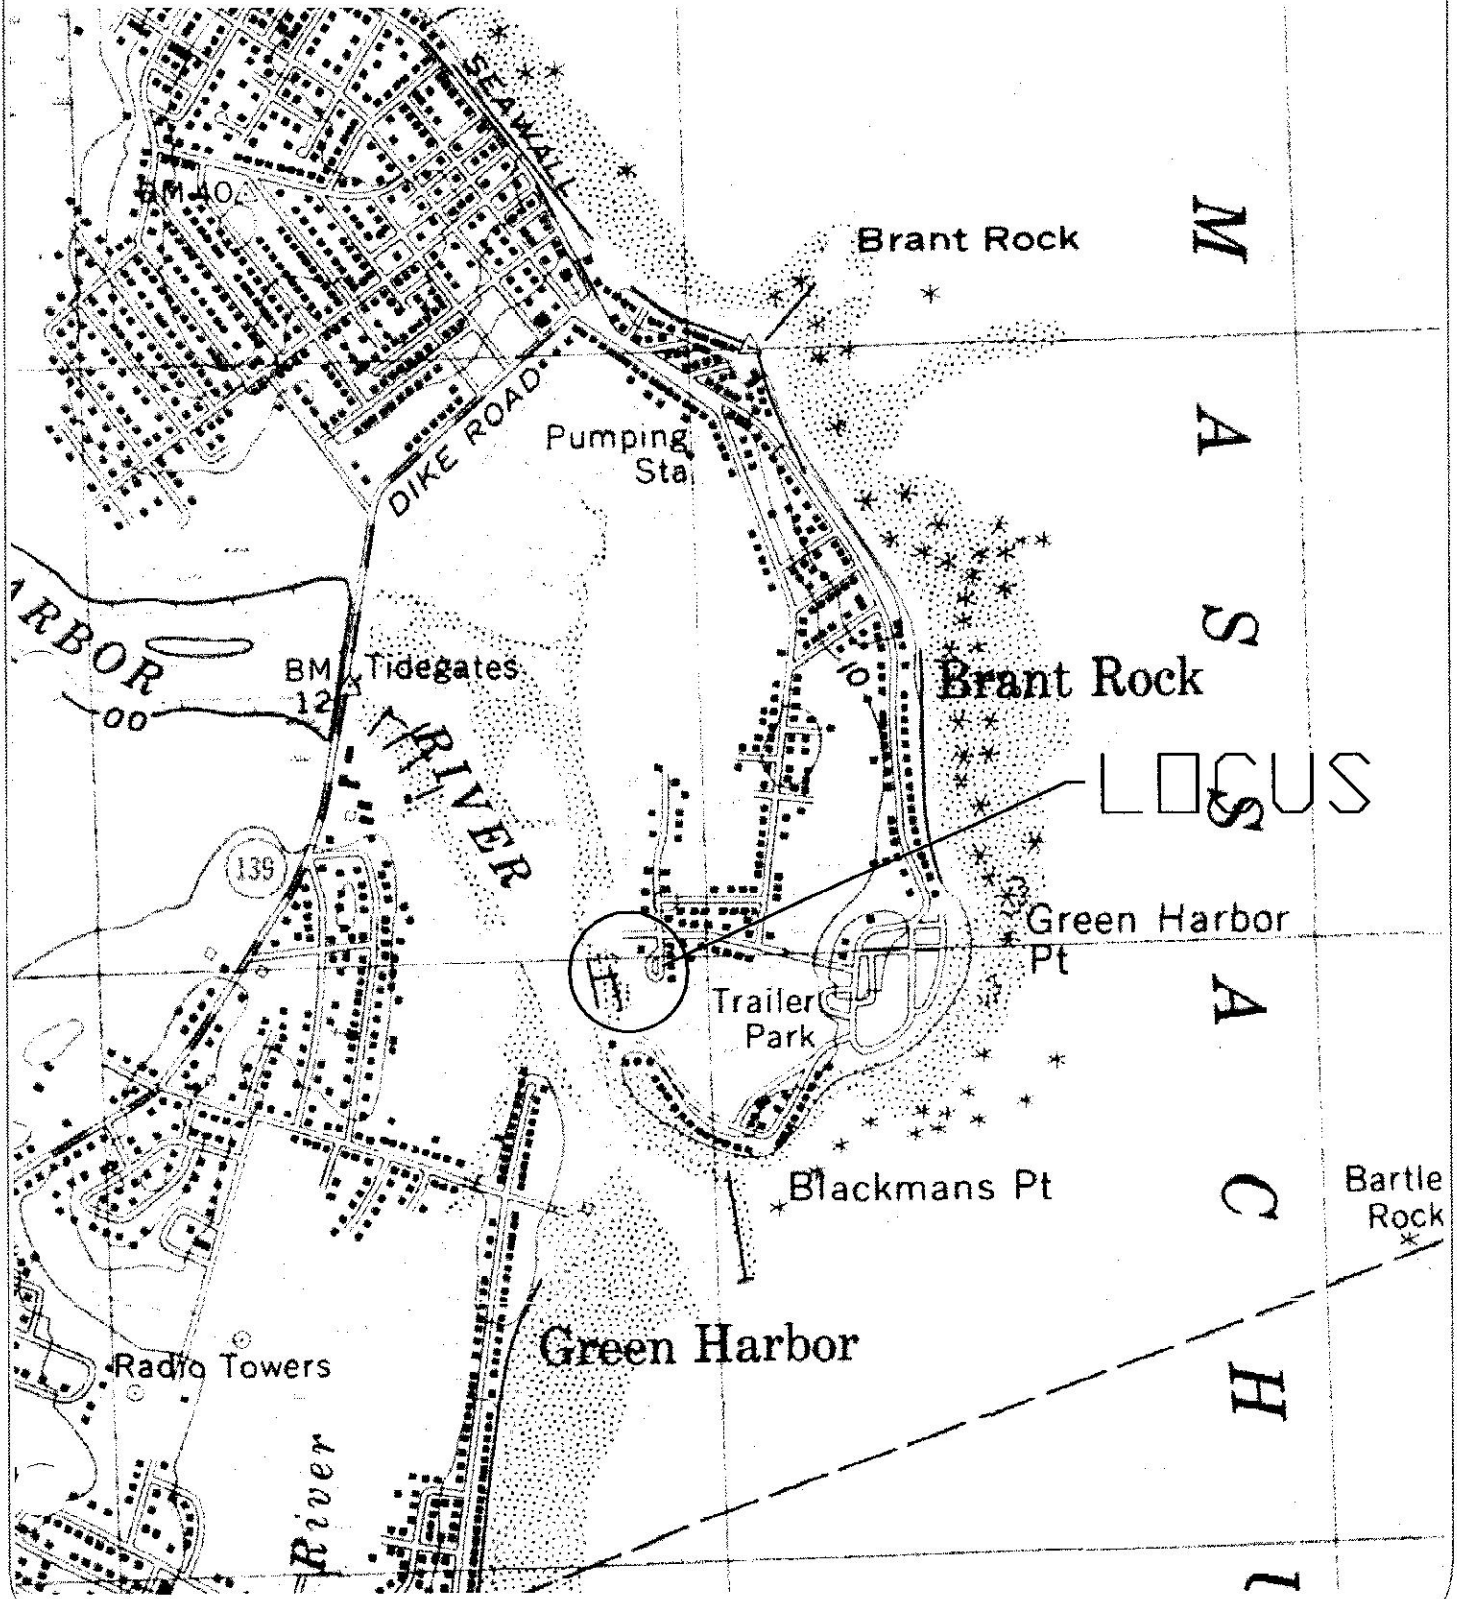

Attachment C – 2008 MSGP

Note: It is helpful to keep a printed-out copy of the 2008 MSGP so that it is accessible to you for easy reference. However, you do not need to formally incorporate the entire 2008 MSGP into your SWPPP. As an alternative, you can include a reference to the permit and where it is kept at the site.
