Check-Flo™

Normally open backwater valve

Code	Description	Qty.
96894	Check-Flo®	1
96899	Access Box	1

FEATURES

- Large clear access cap
- Clear lid
- Stainless steel hinge
- Superior flapper design
- Certified to CSA B181.1-2015 and ASME A112.14.1-2003 (R2008)

Application • Normally open backwater valve prevents the reverse flow of backwater into homes as a result of a plugged sewer system, excess volume in the system or groundwater flooding

Recommended for • Home basements • Flood prone areas • Cellars • Crawl spaces

Large Clear Access Cap - Simplifies cleaning and replacement without removal of whole clear lid.

Stainless Steel Flapper Hinge - Ensures flapper rotates freely

Large Clear Lid - Provides easy visual inspection

Normally Open Design - No air or flow restriction

Superior Flapper Design With Repelling Magnetic Levitation - Self cleans flapper and prevents sticking
