LATENT PRINT SUITABILITY

May 6-7, 2025

Where: Tarrant County Sheriff's Office Training Academy
837 Brown Trail, Bedford, TX 76022

*Class from 8AM-4PM Each Day

***All paid registrations will receive a FREE enrollment to Evidentiary Photography through the Delta Forensics Virtual Academy! (\$75 VALUE!)**

ABOUT LATENT PRINT SUITABILITY

This 2-day training class is designed for forensic science practitioners whom may be tasked with the examination of physical evidence to make suitability determinations as to any latent impressions developed on evidence.

Day 1:

Classroom lectures will be conducted on the areas of overall fingerprint patterns, features, anchor points, crease formations, anatomical sources, and some basic qualitative/quantitative aspects of friction ridge impressions. Students will discuss the various factors that may affect the appearance of developed latent impressions, including an overview of negative findings and distortion factors. Students will also be instructed on the areas of exemplars that may be required from victims/suspects/elimination prints in order for an examiner to conduct a full examination based upon the overall features and shape of the developed latent, to include 10-prints, palm prints, and major case impressions. (8 Hours).

Day 2:

Students will utilize previously developed latent impressions and use the factors discussed to make suitability determinations on which latents should be lifted for further examination and document their reasoning for reaching their decisions. Pre-made lifts will be discussed in a group setting to assist the class as a whole in their understanding of the various considerations that are used to in the decision making process. During the discussions, the instructor will conduct live analysis on various latent impressions to assist in the understanding of the examination process that follows the recovery process from the perspective of a latent print examiner to demonstrate the features used during the comparative process. (8 Hours)

This course has been approved by the IAI Latent Print and Crime Scene Certification Boards for continuing education towards the certification programs.

\$299

ABOUT YOUR INSTRUCTOR:

Andrew R. Reitnauer is a Certified Senior Crime Scene Analyst (CSCSA) through the International Association for Identification. For the past 20 years, he has been an active Latent Print Examiner, Crime Scene Responder, Educator, and Section Supervisor. In addition to casework duties, Andrew has also served as a primary trainer for new examiners and outside agencies. He is a Past- President of the New York Division of the IAI and is an active member of multiple IAI Divisions and organizations.
