The World of Healthcare is Evolving, are you?

MedFormix[®]Vue

How Much Are You Leaving ON The Table?

“Doctors under-code on the average of **\$40K** per year because they *fear* being audited.”₁

Are YOU that Doctor?

With **Chartscore[®]**, you can charge correctly for your services rendered *without* the *fear* of being audited.

You won't know how you ever lived without MedFormix[®]Vue!

Chartscore[®]

Grades Your Documentation Before You Select Your Billing Code

How Does It Work?

When you set up your system, you indicate which of our codes to correlate with:

- your chart outline
- your electronic orders
- your Speed Text
- your Electronic Orders

It is ready to go to work for you when you are seeing patients.

When you add begin seeing patients, enter:

- findings in your chart notes—CC, HPI, ROS, PHI, etc.
- the diagnosis
- the e-Rx
- the results to your electronic orders
- assessment
- plan
- follow up or recall

Chartscore displays the level of service for each area of your documentation.

The final calculation is the level of service recommended for you to bill for today's visit.
The goal is for you to be able to bill for all that you are due to collect for today!

Chartscore does not force you to bill that level;
but it is always up to you to decide which level of service you wish to bill.
