FIRST PLACE WIN AT CRADLE OF AVIATION

SJS 8th grade students Elizabeth Bracht, Maggie Fravert and Sherfran Louhis placed first in the Cradle of Aviation's Magnetic Levitation competition in late March. SJS was the only Catholic school participating. The students built their own race cars which raced along the track suspended by magnets. Congratulations to our SJS team for building the fastest car!

100%

ACCEPTANCE RATE
FOR SJS 8TH GRADERS applying
to private schools

CONGRATULATIONS TO OUR 8TH GRADERS!

For our students applying to private schools, we had a 100% acceptance rate. All graduating girls will be attending Sacred Heart Academy. The boys will be attending Chaminade High School, Kellenberg Memorial High School, Holy Trinity Diocesan High School and Garden City High School. We wish all of our graduating 8th graders the best of luck in high school! Come back and visit your SJS family!

WE ARE THE CHAMPIONS!

The Olympics have never been so entertaining. Where else can you earn a medal for tug-o-war, riding a scooter on your belly or climbing through a hula hoop while attached to a human chain? The competition was fierce but everyone came home with a medal and a big smile. Way to go Kindergarteners!

DID YOU KNOW?

ALL 5TH-8TH GRADERS
USE GOOGLE CLASSROOM
for their work

OODLES OF NEW GOOGLE EDUCATIONAL TOOLS

This year all of our students in grades 5 through 8 began using Google Classroom to share assignments, post questions and submit work to the teachers. Google Classroom has been a big success, allowing teachers and students to communicate with each other more easily. Thanks to generous donations from two parents and a grant from the Bishop, students in grades 3-8 will begin using Chromebooks to further enhance their classroom learning in September.

IT'S A SMASH!

This year's drama production of Alice in Wonderland was a resounding success. The hard work of the 6-8th graders was evident to all who attended. Special thanks to Miss Williams and Miss LaBarbera for directing the show. The quality of the show was enhanced by the new sound system in the auditorium that was generously donated last year. Be sure not to miss next year's production!
